## Malta Is Startled By Shocks

Panic-Stricken, People Flee Into Open When Buildings Sway and Crack

EARTHQUAKE LASTED FOR SEVERAL SECONDS

Violent Shock Was Also Felt To-day in Sicily

Malta, Sept. 18.—A severe earthquake shock of several seconds' duration occurred here at 7.35 o'clock this morning. Many buildings were badly shaken. The churches were filled with worshippers attending Mass when the shock came. Large numbers, seized with panic, rushed from their homes into the streets.

Large cracks were noticeable in many buildings, including several churches, and the people were in some danger from falling stones.

Felt in Sicily  
Syracuse, Sicily, Sept. 18.—A violent earthquake shock was felt here at 7.39 o'clock this morning.

## POINCARÉ TAKES ROLE OF MEDIATOR

French Premier Seeks to Settle Bulgar-Jugo-Slav Controversy

Paris, Sept. 18.—Premier Poincaré is making an effort to bring about the settlement of a menacing controversy between the Bulgarian and Jugo-Slav Governments over the infiltration of Bulgarian irregulars into Jugo-Slav territory. He has suggested through the French Minister at Sofia that the commission authorized under the agreement of Nish to draw up an extradition treaty should meet at once, and it has been agreed to by the two Governments that the commission shall meet in Sofia on October 1.

View With Concern  
Belgrade, Sept. 18.—The Italian charge d'affaires here has explained to the Government that the dispatch of General Giardini to Fiume as military governor of the free city has affected in no way the actual status of Fiume nor the possibility of an Italo-Jugo-Slav understanding. It should be regarded, he said, as a precautionary measure by Italy, made necessary by the recrudescence of activity among certain extremist elements.

Geneva, Sept. 18.—The new developments in the Fiume situation caused by the appointment of an Italian general to take charge of the Government of the free city has caused some concern, especially by the Balkan delegates to the League of Nations. The Greek and Bulgarian representatives conferred with the delegates from Jugo-Slavia.

## GREECE MAKES FORMAL APOLOGY

Fulfillment of Stipulated Conditions Begun To-day

Athens, Sept. 18.—Fulfillment of the conditions stipulated in the note to Greece from the Inter-Allied Council of Ambassadors as a result of the massacre of the Italian mission near Janina, began to-day, when Minister of Interior Myronichis expressed official apologies to the British, French and Italian Governments at their respective legations.

## NEW YORK PAPERS FAILED TO APPEAR OWING TO STRIKE

New York, Sept. 18.—Most of the morning papers failed to appear to-day as a result of the strike of members of the Web Pressmen's Union No. 23, which was called shortly after midnight.

The strike was called at the conclusion of a four-hour meeting of the printing pressmen.

One Edition  
New York, Sept. 18.—Publishers of newspapers here affected by a strike of pressmen decided to-day to pool resources and get out an edition of six to eight pages bearing the names of all papers affected by the strike. The edition will be run off at 2.30 o'clock.

## HERE TO ADVOCATE LEAGUE OF NATIONS; SIR GEORGE FOSTER

"If there had been no League of Nations there would have been a war between Italy and Greece; and as Greece would not have been in any position to make adequate resistance, other Balkan powers would have been drawn into the conflict, possibly precipitating a new European war."

He declared the British position throughout had been in strict accordance with the principles of the League, and that the British Foreign Office in loyalty to the League could not have taken any other course than the one which had been adopted in making Italy take a sensible view of the League's existence had been justified, in spite of criticism from many ill-informed and querulous quarters, Sir George declared.

## POLAND FAILS TO FLOAT LOAN

London Gave Polish Minister of Trade no Encouragement

Paris, Sept. 18.—M. Kucharski, Polish Minister of Trade and Industry, passed through Paris to-day on his way from London to Warsaw. It is understood that the English financiers gave him no encouragement for a loan to Poland in the present state of the London securities market.

## ITALY'S STAND ON STATUS OF LEAGUE

Geneva, Sept. 18.—Former Premier Salandra, of Italy, addressing the Council of the League of Nations to-day, refused to acknowledge that the question of the league's competency in the Greco-Italian issue could be raised because that incident had been settled. He said Italy, however, would agree that the question of the general interpretation of the covenant be left to authorized persons. This was presumed to mean the Permanent Court of International Justice.

## RED CROSS DRIVE TO ASSIST JAPAN

Toronto, Sept. 18.—All over the province the Red Cross drive to secure funds for the relief of the Japanese is well under way. Ontario officials state. Although no definite sum has been set, it is hoped that \$250,000 will be realized.

## OTTAWA RECOGNIZES NEED OF REDUCTION IN WESTERN RATES

Federal Government Instructs Railway Board to Take Up British Columbia's Freight Appeal; Means Cabinet Not Behind Present High Rates, Oliver Says; Calls Decision Very Favorable Development

British Columbia's appeal for lower rates on grain moving from the prairie westward was referred by the Canadian Privy Council to the Board of Railway Commissioners to-day.

This indicates that the Federal Government does not support the existing high rates on westward-moving freights, Premier Oliver, who has been fighting this Province's rate case, asserted to-day.

"I consider the action of the Privy Council a most favorable development," the Premier stated. "It is evident that the Federal Government is of the opinion that further consideration should be given to the equalization of rates on grain. The only possible inference is that the Government is not supporting the present rate."

The Premier suggested that the railway board, with the rate question put squarely up to it again, might secure valuable information on the whole western transportation question from the royal commission on grain which is sitting in the West now. It will not be necessary for the railway board, in considering western rates, to hear any more evidence, the Premier believes. The board he pointed out, will have before it all evidence taken at the Privy Council's rate inquiry.

An order-in-council referring the rate question back to the railway board was made public at Ottawa to-day. It announces that the appeal of the Province of British Columbia against the mountain scale of freight rates, in so far as it is applicable to export freight rates on grain moving from the prairie provinces to Vancouver and other British Columbia ports has been referred back to the railway commission.

The commission has been asked to reconsider and act on the specific question of export grain rates from the prairie provinces to Vancouver, and for this purpose the arguments submitted at the hearing, which occupied four days, have been sent to the railway commission now in session here. It is stated that the evidence will receive immediate consideration and that an early decision may be expected.

Want Quick Action  
The action of the Government in regard to the specific question of grain rates is due, it is said, to the importance of reaching a decision on this matter as soon as possible. In view of the existing situation in the West, the extent of the crop movement this autumn and the lateness of the season, it is thought that if any relief can be granted in the way of reducing rates on the grain haul to the Pacific, it should be done at once.

The Cabinet has not given any ruling in regard to the whole case appealed to it and will probably not deal finally with it until the return of the Premier and his colleagues from the Imperial Conference, it is said.

## LONELY SETTLER INVITES SYMPATHY OF NEIGHBORHOOD

Immigration Problems Before Canadian Clubs To-day

The dreary heartbreaking isolation of the lonely immigrant settling on the prairie lands of Canada was cited as something which the Canadian Club must endeavor to eliminate, during the course of the discussion on Immigration and Emigration at this morning's session of the Association of Canadian Clubs.

Speaking of the tragic isolation of some of the prairie settlers C. Cook, of Regina, referred to the case of a young wife with a small family including a baby. After a brief sickness the husband died. Unable to leave the home on account of her baby the grief-stricken wife waited for several days.

No friendly aid arrived and the young wife was forced to make a coffin and dig a grave herself.

Group system of settlement, which was advocated as the only way of filling up the great open spaces of the Northwest drew opposition from some of the members as tending to populate the country with settlers who never became good Canadian citizens.

The discussion led to a query to the prairie delegates from Rev. Dr. Clay, president of the Victoria Club, as to whether rumors that in some districts discrimination had been made against Canadians in school appointments, that the flag was not flown from schools. All the prairie delegates present said the conditions of affairs referred to by Dr. Clay did not prevail.

(Continued on page 4.)

## TRAINING GROUND FOR EMIGRANTS

Boys Train on Scottish Farm For Overseas Dominions

London, Sept. 18 (Canadian Press Cable).—The farm of Craiglawn, near Paisley, Scotland, was formally opened to-day as a training centre for city boys who desire to go on the land in the overseas dominions. Since last autumn ninety boys have gone from the farm to Canada.

Dr. Caspar, who has taken a special interest in the enterprise, said at the opening that the idea was that the boys from Craiglawn farm would go to Canada, where he had purchased another farm with a view to their continuing their training and gaining all the experience necessary to equip the boys for farm work in the Dominion.

Many boys who could not "make good" in Great Britain were successful overseas, he said.

It was marvelous how boys taken from unhappy conditions in cities in their country prospered in Canada. One boy paid \$2,000 for a farm and was taking to his new home his mother, a brother and a sister.

## CURATOR NOT YET READY WITH HOME BANK STATEMENT

Toronto, Sept. 18.—A. B. Barker, curator for the Home Bank, said yesterday that he was not likely to have a statement of the bank's affairs ready this week. Three motions for the winding-up of the bank are down for hearing at Osgoode Hall on next Thursday, but in view of the absence of a statement from the curator, they are likely to be adjourned.

## LORD BIRKENHEAD ARRIVES SATURDAY TO SPEAK HERE

For the second time in the history of Victoria, this city will this week be visited by an ex-Lord Chancellor of England, Lord Birkenhead being expected to arrive here on Saturday, accompanied by his daughter, Lady Eleanor Smith.

Lord Birkenhead has had one of the most meteoric careers in the history of the British bar, attaining the rank of Lord Chancellor in 1914, his active career in the House of Commons being a record in this respect.

As F. E. Smith, the fiery coadjutor of Sir Edward Carson, Lord Birkenhead was one of the most determined foes of the Home Rule Bill under debate in 1914, his active organization of militant opposition in Ulster attracting upon him the concentrated attention of all factions of political opinion.

Lord Birkenhead is expected to speak on Saturday before the Victoria Canadian Club, being scheduled to address the Vancouver Club on Friday, and at Winnipeg and Toronto during his tour, which was originally designed as a pleasure trip.

In August, 1922, Victoria was visited by Lord Herschell, twice occupant of the Woolack under Gladstone administrations, who was here as a member of a commission investigating differences between Canada and the United States. Lord Cave, the present Lord Chancellor of England, was a visitor to Victoria recently prior to his elevation to the chairmanship of the House of Lords.

## FLEET TO RETAIN SEPARATE ENTITY

Australia's Premier Says Navy to Co-operate With Britain

Colombo, Ceylon, Sept. 18 (Canada Press cable via Reuters).—Premier S. M. Bruce, of Australia, in an interview here while on his way to attend the Imperial Conference, said the Australian navy was going to retain its separate entity but the Australian delegates to the conference in London expected to conclude arrangements which would permit of real co-operation in peace time between the Australian navy and the British fleet.

Premier Bruce said a naval base at Singapore was a vital necessity although the scheme for such a naval base was not meant to be directed against any particular prospective enemy.

## Fire Loss At Berkeley \$8,000,000

Estimate Following Survey by Assessor at Devastated California City

MANY PERSONS ARE REPORTED INJURED

Search For Bodies Among Charred Ruins Without Results

Berkeley, Cal., Sept. 18.—More than a thousand houses were destroyed with a property loss of \$8,000,000 in the fire which devastated the northeast residential section of Berkeley yesterday, according to the reports of a survey completed at noon to-day by City Assessor Harry J. Squires.

Upwards of forty persons were injured and there are unconfirmed reports of others killed.

Search for bodies among the charred ruins has so far been without result.

Reconstruction Task  
Berkeley, Cal., Sept. 18.—Berkeley to-day faced the greatest task of reconstruction in the city's history. Fire, sweeping through the prosperous and thickly settled Craigmont, Euclid Avenue and La Loma Park districts of North Berkeley yesterday laid waste more than thirty-five city blocks, destroyed at least 600 buildings, including the homes of many wealthy and prominent citizens, caused property damage estimated at \$10,000,000 and left approximately 2,400 persons homeless.

To-day only a forest of stark, flame-charred chimneys, great masses of smoldering debris and piles of furniture and personal belongings scattered in helter-skelter confusion remained on what was yesterday morning a peaceful suburban district.

Origin of Conflagration  
The conflagration began in a small bush fire of undetermined origin, early yesterday on the northeastern slope of the high ridge which lies on the northern edge of the city. At noon an ominous cloud of smoke blanketed the city, and thickened embers of burning eucalyptus trees fell in the heart of Berkeley's business district.

Spreading in three directions, the fire leaped from home to home, sparks carried by the wind kindling trees, roofs and bushes. Within a few hours the flames had spread ten blocks to the southeast and were stubbornly defying the efforts of hundreds of firemen, police and volunteer fire departments from Berkeley and adjacent cities and volunteers, who fought vainly to extinguish them.

Dynamite was used to clear the spread of the conflagration in that direction, and at last the fire was checked and the danger of further destruction averted.

No deaths were reported, despite the tragic suddenness with which the fire raced through the doomed area.

## STANLAND TO EXAMINE QUEBEC LIQUOR MEASURE

Police Commissioner Will go East at Once; to Continue to New York

To investigate administration of Quebec's Government Liquor Act Police Commissioner W. E. Stanland left for Eastern Canada to-day.

"I wish to find out the facts of the Quebec situation from the standpoint of police administration in view of our own liquor problem here," Mr. Stanland told The Times this afternoon before he boarded the boat for Vancouver. Montreal police officials will assist Mr. Stanland in his liquor investigations and will show him exactly how they administer the Quebec liquor law.

Mr. Stanland also plans to inquire into the administration of Ontario's prohibition law while he is in eastern Canada. Later he will go on to New York to visit his friends, Police Commissioner Enright and Mayor Hylan.

Mr. Stanland's decision to investigate the eastern Canadian liquor situation follows his controversy with Hon. A. M. Manson, Attorney-General, over the present open sale of beer in New York, British Columbia cities. Mr. Stanland's view is that the provincial authorities are to blame for these conditions, while Mr. Manson has decided that the municipal authorities are entirely responsible for the administration of provincial liquor laws.

National Shoe Week is a demonstration that the New Shoes for Fall are equally as dainty and as important as any other item of appearance.  
We invite you to see these New Shoes, here—NOW.

## G. D. CHRISTIE

Four Doors From Hudson's Bay Company

### BRAVERY

ROBERT SCOTT

Plainwell, Mich.—Electricity is the greatest force known to man. Yet Robert Scott, a Boy Scout of thirteen, showed his contempt for it.  
Robert's younger brother, Herman, stepped on an electrically charged third rail a few miles from his home here recently.

The shock knocked Herman unconscious. Robert carried him to safety after donning electricity-proof gloves. Then he bore the little limp form to a nearby stream. There he submerged the badly burned body and restored respiration by artificial means.

### RESTORES BABY'S SIGHT

St. Winifred, Famous Well, Cures Little Girl Blind Since Birth

London, Sept. 18.—The world famous well of St. Winifred at Holywell is said to have given the power of sight to a Mary Williams, the twelve-month-old daughter of a Liverpool couple, who had been blind since birth.  
The baby screamed on touching the water and then displayed unusual interest in a yellow blouse worn by one of the onlookers. Tests which were applied immediately proved that the child could see clearly. The doctor attending Mary had told the parents that there was little chance of the child ever being able to see.

### ANNOUNCEMENTS

Queen Alexandra Review, No. 11, W.B.A., will hold an informal social with programme, on Sept. 20, at nine p.m. Admission 25c.

## Corns

## Blue-jay

The simplest way to end a corn is Blue-jay. Stops the pain instantly. Then the corn loosens and comes out. Made in clear liquid and in thin plasters. The action is the same.

At your druggist

### COURT DECISION ON POWERS OF FIRE MARSHAL

New Westminster, Sept. 18.—Before a fire marshal is authorized to order the owner, or occupier of premises to repair the buildings or premises, he must have evidence that they are, by reason of age or disrepair, liable to fire, according to a decision given by Judge Howay yesterday in the appeal by W. H. Howard, Seattle, owner of the New Westminster Opera House, from the decision of the fire marshal.  
His Honor held that the onus of proof that the building was worthy of condemnation or destruction was on the fire marshal, who therefore called his evidence.  
Judge Howay held that no case had been made out for the exercise of the powers under the Fire Marshals' Act.

### SHARP CLASH ON BRAZILIAN FRONTIER

Montevideo, Sept. 18.—A telegram received at the Foreign Office from the Uruguayan consul in Zuzary, near the Brazil-Uruguay frontier, says the town was taken by a force of 1,500 Brazilian rebels. There was a sharp fight in which seven men were killed and twenty-seven wounded on both sides. Twenty members of the Government forces were drowned as they attempted to escape by swimming the river Cuareim. Their commander and fifteen men were captured.

### SHERIFF ON TRAIL IN MURDER MYSTERY

San Bernardino, Cal., Sept. 18.—The body of the man found murdered in a shallow grave in Cajon Pass last week is that of N. N. Lucasen, believed to be a wealthy former resident of Alaska, according to an announcement last night by Sheriff W. A. Shay, who swore to a murder complaint against J. Williams, who had lived with Lucasen for five weeks at Oakland. Seven weeks ago the two men left Oakland in Lucasen's touring car on a camping trip. Lucasen was sixty years of age. Two years ago he left Alaska and took up his residence in Oakland. He had lived in Alaska for fifteen years.

### SEEK LIQUOR SOURCE

St. John's, Nfld., Sept. 18.—It is understood here that the United States revenue authorities are turning their attention to Newfoundland to seek explanation of the source of big liquor shipments that are finding their way into America. An agent of the United States Government is expected here shortly to conduct an investigation.

### CRUSHED BY ELEVATOR

Montreal, Sept. 18.—Crushed by a freight elevator in the plant of the William Davies Company here, as he was on his hands and knees trying to see whether a rat had been caught in a trap, David Taillefer, fifty-eight, was instantly killed yesterday.

### JUST LIKE A BOY

A boy was spending his first term at a boarding school.

The first letter, anxiously awaited by his parents, was not received for more than a week, and then it was short and to the point: "Dear People—I don't think I shall be able to send you many letters while I'm here. You see, when things are happening I haven't time to write, and when they aren't happening I haven't anything to tell you. With love to all, Harry."

Hilda (married a fortnight): "I do think it was kind of Mr. Dash to give us a wedding present. We scarcely know him!"  
Jack: "Oh, well, you see, I sent a wreath when his wife died. I suppose it was a case of 'I thought of him in his trouble, so he thought of me in mine!'"

### DRIVING HIM IN

## CANADIAN PACIFIC DIRECTORS ON ANNUAL TOUR

E. W. Beatty, President of the Canadian Pacific Railway, is now on his annual tour of inspection over the Company's lines. He is accompanied by a number of Canadian Pacific Directors, and the trip will probably prove of more than usual importance in view of the many important questions connected with transportation that are under discussion in the West.

The party of Directors consists of Sir Herbert Holt, Montreal; Sir Augustus Nanton, Winnipeg; J. K. L. Ross, Montreal; F. W. Molson, Montreal; and W. N. Tilley, K.C., of Toronto. Vice-President A. D. MacTier accompanied the President as far as Port Arthur.

They left Montreal at 5.55 a.m., on Sept. 6, and made the first stop at Toronto, leaving the next day for Port Arthur and Fort William. Short stops were made at Winnipeg, Brandon, Moose Jaw, Medicine Hat, Calgary and Revelstoke.

## BIG DEVELOPMENT PERIOD IS COMING

F. H. Richmond, Hudson's Bay Director, Optimistic Over West

Toronto, Sept. 18.—That Canada is on the verge of a great period of development is the opinion of Frederick H. Richmond, of London, Eng., a director of the Hudson's Bay Company, who is in the city. Mr. Richmond has just completed a tour of inspection of the company's stores in Western Canada.

"I was astonished at the optimistic feeling which prevails in the West," said Mr. Richmond. "Conditions indicate that the bottom of recent financial depression has been reached, and that prosperity was not far away."

Mr. Richmond was of the opinion that a bank should be established by the Dominion for the purpose of lending financial assistance to the farmers in the West.

This he thought, would overcome many difficulties in the way of Western Canada's progress.

### MILL DESTROYED

Nelson, B.C., Sept. 18.—The sawmill of the Canyon City Lumber Company near Creston was destroyed by fire early yesterday morning.

## COOLIDGE OWN BOSS, SCIENTIST FINDS BY PHRENOLOGY

PRESIDENT COOLIDGE'S PHRENOLOGICAL DIAGRAM

New York, Sept. 18.—A scientific analysis of President Coolidge has been made by Jessie Allen Fowler, noted phrenologist, who has traced and named the qualities which she says are proof of the power he is destined to show in the White House. Miss Fowler, for many years noted as a lecturer, writer and editor, has prepared a diagram and the following article.

BY JESSIE ALLEN FOWLER  
Vice-President American Institute of Phrenology; Editor-in-Chief, Phrenological Journal; Author, "Practical Physiognomy," etc.

The country is particularly fortunate in having a man of the ability, courage and foresight possessed by Calvin Coolidge to take up the duties thrust upon him so suddenly, of president of the United States.

He has the mental-motive type of temperament, which makes him a student, thinker and planner rather than an ease-loving man. He is quite original, preferring to work out his own ideas rather than those of others, when he believes that he is right and others are wrong.

Sagacious and intuitive, he is able to understand people at first sight and ought to know how to handle large groups of men successfully. The police in Boston know that, as they have heard his logical arguments. He is no trifler, but is serious, and he means what he says as well as says what he means.

His head is exceptionally high, which gives him a keen conscientious spirit and inclines him to toe the mark himself and expect others to do the same. He is a law-abiding man and he sees no reason why others should not be law-abiding, too.

Breadth of head over the ears gives him force to push a principle to its conclusion.

Thin lips betoken the fact that he can hold his own counsel and reserve his opinions until the right times comes to express them.

Eyes keenly intellectual show that he will allow himself to consider a subject from a purely thoughtful viewpoint rather than from an emotional one.

His posterior lobe is large, and he loves his home, his family, his country and his friends tenaciously. Hence he ought to be a wise guide and counsellor in all public matters as an executive officer, for a government is like a large family.

Though he is a man of few words, those words are always well chosen. His speech of acceptance contained forty words, but those forty words expressed all he needed to say.

He is a humanitarian and illumines his work in a practical, business-like and spiritual way, for he looks all round a subject before he ventures an opinion.

## MISSING HUSBAND UPSETS MARRIAGE

After Thirty Years John Buckley Returns to Confront Wife

Vancouver, Sept. 18.—Thirty years after their marriage, John Buckley, of Connecticut, who was thought dead has returned to confront his wife, Lavina, since remarried to E. A. Ewing, Vancouver.

The runaway match of fifteen-year-old Lavina and John Buckley, who had just reached his majority, was of short duration. According to the woman, he deserted his girl bride and she heard nothing more of him until years later, when his sister wrote that he had died.

Free from her husband's encumbrance, she again entered the lists of matrimony but the second husband died after a few years. In 1910 she essayed another trial with E. A. Ewing and he, several years ago, entered suit for divorce. This action was discontinued, however, and recently steps have been taken to obtain a decree of nullity on the ground that Mrs. Ewing was a married woman when she married him.

This latter proceeding followed the discovery that John Buckley, the original husband, was still alive; and although he obtained a divorce from the Connecticut courts in 1915, the decree was five years too late to free the woman so as to establish the validity of her marriage to E. A. Ewing.

An affidavit has been received from John Buckley reciting these circumstances and Mr. Justice D. A. McDonald has authorized the use of the document at the trial of Mr. Ewing's suit for nullity.

R. M. MacDonald, counsel for Mrs. Ewing, consented to the use of the affidavit, so as to save expense, and stated if the document was genuine and the facts there recited were authentic, no opposition would be raised to Ewing's action.

## COMMISSIONER IS NAMED FOR PROBE

T. H. Walker, K.C., to Act in Newfoundland

St. John's, Nfld., Sept. 18.—Premier Warren and Sir Richard Squires have called for England direct from St. John's, the former to attend the Imperial Conference and the latter to attend to some legal business in the Old Country. Before leaving here Premier Warren announced that the Government had decided to name T. H. Walker, K.C., Royal Commissioner of Inquiry into the alleged scandal that led to the disruption of the Squires Government.

The Daily News, organ of the Opposition, announced that the Commissioner will be instructed to inquire into alleged financial relations between the late Government or members thereof, and the British Empire Steel Corporation and its predecessor, the Dominion Iron and Nova Scotia Steel and Coal Company. The newspaper also asserts that the Departments of the Liquor Controller and Public Works will also come within the purview of the inquiry.

## WARNING ISSUED TO FOREIGNERS IN EARTHQUAKE ZONE

Tokyo, Sept. 18.—The Japanese Foreign Office has advised foreigners that, because of the difference in language and customs, they should avoid walking about the devastated area except in case of absolute necessity. They are also requested to refrain from making photographs. The Japanese consider photographing the dead a sacrilege.

Foreign hospital assistance is welcomed particularly, as one hundred leading hospitals and one thousand offices of physicians were destroyed. The Japanese warships and coast guard vessels under the provisions of the Washington Treaty, went on the rocks during the earthquake, and a bad leak and gradually submerged. It was decided to beach her, popular sentiment deciding the ship should be saved as a souvenir of the battle of the Sea of Japan.

The raw silk market has reopened.

## LEAGUE ACTIVITIES AT GENEVA ARE HARD TO FOLLOW

Geneva, Sept. 18.—Geneva is developing at such amazing rapidity as the great world forum for exchange of ideas that few, if any, of the delegates assembled here for the Fourth Assembly of the League of Nations are able to follow all the activities of this extraordinary mental mart.

With five or more League commissioners sitting simultaneously, the League supporters here from many countries are having a desperate time to follow all the debates and to keep in touch with the various developments.

### FATAL QUARREL

Oregon City, Ore., Sept. 18.—William Ell, forty, yesterday shot and killed his wife in the presence of their four children, following a quarrel at their home at West Linn, according to a statement says by the police to have been made by the slayer following the tragedy.

### KILLED BY RUNAWAY TEAM

Embo, Ont., Sept. 18.—James Trodd, sixty, an Englishman, who had been in Canada less than a year, was almost instantly killed when he fell beneath a wagon of a runaway team which he was driving.

## MILITARY ENFORCE LAW IN OKLAHOMA

Investigation Into Acts of Mob Violence

Oklahoma City, Sept. 18.—A clash between members of the State Legislature and Governor J. C. Walton over martial law was imminent to-day. Despite the Governor's warning that he will jail any legislators that attempt to convene themselves in extraordinary session, the movement for an out-and-out test of the executive's authority took definite form.

Oklahoma City, Okla., Sept. 18 (By the Associated Press).—The two largest cities actually occupied by the military, Oklahoma passed its second day under martial law without disturbance.

Nowhere in the state except at Tulsa and Oklahoma City was martial law actively visible. At these places, however, military courts of inquiry were in session and proceeding with investigations ordered by Governor J. C. Walton in connection with alleged mob depredations.

Armed guards paced the entrances to the state capitol here, permitting only those to pass who had official business within.

Last night word was received from Colgate that Judge J. H. Linebaugh had adjourned the regular session of district court there until next Monday, explaining that he wished to avoid any question as to the legality of the court's right to proceed. This, with the orders issued preventing the convening of a special district court grand jury here yesterday are the only instances of military interference with the courts.

### Machine Guns Removed

Civil authorities here last night held undisputed police powers following Mayor Cargill's threat to withdraw the entire police department from duty unless the military relinquished control over it. Colonel W. S. Key, commanding the local troops, immediately ordered the reinstatement of Police Chief Ray Frazier and machine guns which had frowned on the City Hall and County Court House were removed.

The military investigation into acts of mob violence undoubtedly will centre in Oklahoma City, whence, the Governor charged in his proclamation of martial law, the organization of the Ku Klux Klan emanates to all parts of the state.

The military court here is expected to begin to-day an extensive investigation into masked activities either directed or executed at Oklahoma City. In this connection, observers pointed out that only two instances of mob violence have been brought to light here during the last two years: the lynching of a negro during the strike of packing house workers and the beating of a physician about six months ago.

State headquarters of the Ku Klux Klan remained open but no statement was made by officials as to the organization's attitude toward the Governor's declaration of martial law.

### BANDITS RAID BANK

Cleveland, Minn., Sept. 18.—A bandit gang terrorized this village early to-day, entering the vault of the First State Bank by six terrific explosions and fled in a stolen automobile with cash and bonds estimated in value at between \$14,000 and \$18,000.

## Asthma and Hay Fever

## CANADA MAY MAKE OWN CARBON BLACK FROM NATURAL GAS

Ottawa, Sept. 18.—The Mines branch of the Department of Mines, through R. T. Elsworth, of the chemical division, is this season making a field study and chemical investigation of natural gas in Western Canada with particular regard to determining the composition, character and gasoline content of these gases. At present natural gas containing ethane and other hydrocarbons is in great demand for the manufacture of carbon black.

Carbon black is a soft, light soot, somewhat similar to the soot produced by a smoking kerosene lamp. It is, however, a product of the burning of natural gas. The flame is impinged against a metal surface, which is kept cool by running water, and as the soot accumulates it is mechanically removed. The chief production centres at present are in West Virginia and Louisiana, where there are tremendous supplies of natural gas. Each of these states has stringent conservation legislation governing the use of the gas. In Louisiana, before the gas may be used for the manufacture of carbon black the gasoline content must be extracted, and in certain sections but twenty per cent. of the daily output of the wells is permitted to be used for carbon black manufacture. All possible efforts must be made to avoid waste in the use of the natural gas. How important the industry is in Louisiana may be judged from the fact that one company's plant consists of 130 burning houses, 114 by 12 feet.

Canada has many gas areas, some of them situated at points distant from possible domestic utilization, and it is likely, as a result of the Mine's Branch's investigations, that some of these may be found available for the economical production of carbon black. The Mining Lands Branch of the Department of the Interior is at present engaged in framing regulations for the production of carbon black from wells situated on Dominion lands.

The Ontario Government, it is reported, has recently given permission for the natural gas from a small field in the Sarnia district to be used for the production of carbon black. It is understood that development will take place at once. The initial plant will be of limited size, and will permit of enlargement as the opportunity arises.

The recovery of carbon black varies from one-quarter to two pounds per 1,000 cubic feet of gas, and the market price ranges from 17 to 22 cents per pound, with as high as 50 cents for special grades. The black is packed in paper sacks for shipment.

The uses of carbon black are almost innumerable. One of the chief uses is in the preparation of printing ink, such as this paper is printed with. By admixture with oils of different qualities and consistencies a wide range of ink may be made, from that which is termed news-back to a grade suitable for the printing of the finest illustrations.

It is also used as a pigment in the manufacture of paint, in which case a loading material is generally added, usually barytes. In the making of black polishes carbon black very generally enters, while for phonograph records, fountain pens, carbon paper, black, enamel leathers, etc., it finds many uses.

In the preparation of the rubber composition of automobile tires and other rubber goods the greatest consumption of carbon black has developed. It is estimated that fully forty-five per cent. of the entire production is used in this industry. Owing to its fineness of subdivision it is a very valuable ingredient in automobile tire compositions, it must, however, be used in combination with other things. Alone as a rubber pigment it is not particularly valuable.

Canada is a very large user of carbon black, and, while as yet producing none, for the year ending March 31 last, imported, of lamp, bon, ivory and carbon blacks, 3,745,000 pounds, of a value of \$446,812, and it differs Canada duty free.

Should the Mines Branch be able to demonstrate the commercial possibilities of the utilization of the Alberta gas fields for the production of carbon black it will add considerably to the industry of Canada and make use of another great natural resource.

**ARBITRATION SETTLES  
MANY RAIL DISPUTES**

Chicago, Sept. 18 (Associated Press).—Satisfactory settlements were reached in a large majority of the cases of grievances and controversial questions arising under the employee representation plan of the Pennsylvania Railroad system for the first half of 1923. This was accomplished at conference between the local officers and representatives of the employees without recourse to any higher authority, according to a report made by the Northwestern Region headquarters of the system.

"During this period a total of 3,066 cases were taken up with officers below division superintendents," the report says. "Although appeal is provided for to superintendents, general superintendents, general managers, and finally to a joint reviewing committee equally representative of management and employee, the number of cases carried to the general manager totalled 233 and those reaching the reviewing committee, 84."

"Of the controversial questions taken up originally or on appeal with the local officers, superintendents, general superintendents and general managers, almost half were adjusted or compromised in favor of employees. Of cases appealed to the reviewing committee, about half were decided in favor of the management."

The Pennsylvania plan was formulated and established by joint action of the management and employees about two and one-half years ago. The report concludes that under its operation local settlement of disputes has reached a new high level of success.

**ART THIEVES ARE  
BUSY IN GERMANY**

Munich, Sept. 18 (Associated Press).—Burglars recently rifled the villa of the late Franz von Lenbach, painter of the well-known Bismarck pictures who has been dead for twenty years, and stole a number of valuable masterpieces. These included a picture of Franz Hals called "The Laughing Boy," two pictures by Teniers, an original sketch by Rubens, and a number of paintings by Lucas Cranach and other celebrated artists.

"Fader, poor old they has just died after that Scotsman paid him the half-crown he owned him."

"I suppose it was the shock?"

"No, fader—it was lead poisoning!"

**CONNECTICUT MERCHANT  
LEFT VALUABLE VIOLINS**

Norwich, Conn., Sept. 18 (Associated Press).—Four specially valuable violins are in the collection of the late Archibald Mitchell, dry goods merchant, whose death occurred here recently.

They are the "Bott" Stradivari (1723), the "Earl" Stradivari (1725), the "Jarnowick" (1741), and the "Healy" Stradivari (1711). The "Bott" is regarded as one of the most widely known instruments in the United States. It was at one time owned by the Duke of Cambridge, and afterwards by Louis Spohr, passing later into the hands of the late Prof. John Bott who, as a young man, had been a pupil of Spohr.

The "Earl" is of exceptional size and weight, which distinguishes it from any previous or later work of Stradivari. It was purchased about 1820 by the founder of the London Royal Academy of Music, the Earl of Westmoreland, while he was ambassador at Vienna.

The "Jarnowick" is a splendid specimen of the last type of the master. It is contemporary with the "Paganini" Guerneri (1743), now preserved in the municipal palace at Genoa, which, in the hands of the great Maestro, delighted so many thousands in Europe.

The "Healy" is one of the very few perfect Stradivari violins in existence. Mr. Mitchell was one of the founders of a dry goods concern here which has stores in Portland, Me., and in Grand Rapids, Mich., and which at one time operated stores in Fort Wayne, Ind., Detroit and Saginaw, Mich., and Middletown, Conn.

**ROARING PLANES  
ENCIRCLE LONDON'S  
BUSY AERODROME**

London, Sept. 18 (Associated Press).—Londoners find the great aerodrome at Croydon something like a main-line railway station.

There is a level crossing near the entrance where a flagman holds up the road traffic while big Handley-Page and other planes roar across the runway prior to leaving earth for Paris, Rotterdam, Cologne or Hamburg. Once past the flagman, the motor comes to a compact village in which headquarters of various air services are situated round an up-to-date base. It is a post office, meteorological office, air administrative headquarters and customs establishment.

Rhymous charts are set up on which the progress of various services are flagged by an official who is in constant wireless touch with planes on their way to and from the capital. Should any particular plane be arriving late, it is ordered to wait and taxi around until an outgoing liner is clear and so avoid risk of a collision.

On the ground there is a rush of porters and interpreters to meet incoming and outgoing planes. After being in the heavens several hours, conditions, on alighting, are very similar to those at a railway station.

**TWO KILLED IN  
AUTOMOBILE CRASH**

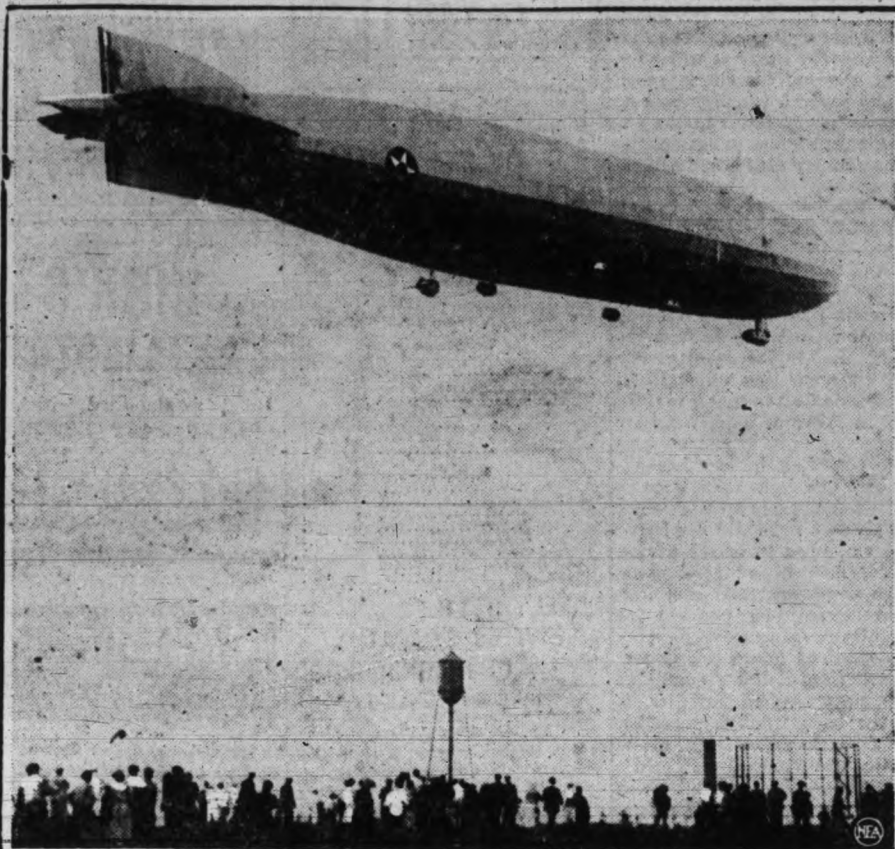

Ottawa, Sept. 18.—John Ferguson and Edward Desjardines, believed to be visitors from the United States, were killed instantly here early today when their automobile crashed into a telegraph pole on the Gatineau road. A third man, P. Emard, is in hospital, while the driver, E. Emard, escaped.

Two women believed to have been occupants of the car have not been seen since.

A foreman superintending the laying of some pipes was asked by a man for a job.

Foreman: "Why, man, we've nearly finished it."

Applicant: "Well, you'll not get done any quicker by setting me on."

**NEW ZR-1 IN ITS FIRST FLIGHT.**—The newest addition to the air forces of the United States, the ZR-1, photographed just after it left the hangar at Lakehurst, N. J., in its initial flight. Compare its size to the water tower and gas tank and to the spectators in the foreground, of whom there were several thousands.

## STAMP COLLECTORS DENY FAD ON WANE

Washington, Sept. 18 (Associated Press).—The old fad for collecting postage stamps not only is not on the wane, but is going stronger than ever, according to members of the American Philatelic Society, who recently concluded here what they characterized as the most successful gathering since the organization was founded thirty-eight years ago. More than 250 attested to the popularity of collecting when they bid quick and lively at an auction in which several hundred stamps and groups were put up.

In all more than \$6,100 was paid over as a result of the bidding. The highest price paid was \$560 for a four-cent blue stamp issued by the British Guiana in 1856, and which was considered a rare specimen. The fact that such a price was paid for a stamp not in best condition was regarded as indicative of the interest of collectors still retain. This stamp in prime condition is listed at a catalogue price of \$4,000.

Stamp collecting, though, isn't what it used to be, the "old timers" say. There are too many "wise ones" in the field and it is no longer possible to pick up valuable rarities for a song. Even the children, they declare, now know a good one when they see it. They all hark back to the time when such and such a stamp could be "got anywhere for a few cents but is now quoted and bought for as many dollars.

**CONGREGATION OF MANHOOD IN  
SERVICE IS TO BE THE THEME OF THE  
CONFERENCE.** Edward H. Bonnell, of Philadelphia, president of the Brotherhood of St. Andrew in the United States; Dr. Nathaniel Butler, of the University of Chicago; the Rev. Sheldon M. Griswold, bishop suffragan of Chicago; the Hon. Franklin Spencer Edmonds, of Philadelphia, and the Very Rev. J. P. D. Lloyd, of Halifax, will make opening addresses.

Following a business session Friday morning a joint meeting of the Brotherhood of St. Andrew in the United States and the Brotherhood of St. Andrew in the United Kingdom will be continued in the afternoon with an address on "The New Challenge of the Junior Brotherhood" by G. Frank Shelby, of Philadelphia, general secretary of the national brotherhood.

How to introduce family prayer into the home will be the theme of the Saturday programme which will be introduced by Warren Hires Turner, of Philadelphia, national treasurer of the brotherhood, and will continue in what has been described as the most impressive general conference of the convention. It will have for its topic, "How to Secure the Best Young Men for officers in the Church Army."

At a unique service Saturday afternoon at Houghteling Memorial chapel erected on the site of the room where the first chapter of the brotherhood was founded, speakers will include Dr. John W. Wood, executive secretary of the foreign work of the department of missions, George Anthony King, president of the Brotherhood in England, and the Rev. Floyd W. Tompkins, rector of Holy Trinity Church, Philadelphia.

Three noted figures in the work of the Episcopal Church will speak at the concluding conference of the convention Sunday afternoon, at which time the topic will be "Christian Citizenship." Leaders will be the Rev. L. Ralph Sherman, of Toronto; Herbert S. Houston, of New York, and the Rev. Thomas F. Gallor, president of the National Bishop and Council.

**ST. ANDREW DRAWS  
WORLD CHURCHMEN**

Chicago, Sept. 18.—Religious statesmen and educators from all parts of North America, as well as the foreign missionary field, have gathered here for the programme of the International Convention of the Brotherhood of St. Andrew, which will be held at the University of Chicago, September 19 to 23.

The celebration at St. James Church of the fortieth anniversary of the founding of the first chapter of this world-wide religious fraternity will be a feature of the convention. A five-day conference for boys enrolled in the Junior department of the brotherhood also will be held.

The brotherhood was founded in 1883 by James L. Houghteling, a Bible class teacher, and subsequently became national and later, international in scope. It includes organizations in the United States, England, Scotland, Ireland, Canada, Australia, New Zealand and the West Indies. The convention is expected to bring together the largest group of men and boys ever seen in the history of the Episcopal church for a like purpose.

Conservation of manhood in service is to be the theme of the conference. Edward H. Bonnell, of Philadelphia, president of the Brotherhood of St. Andrew in the United States; Dr. Nathaniel Butler, of the University of Chicago; the Rev. Sheldon M. Griswold, bishop suffragan of Chicago; the Hon. Franklin Spencer Edmonds, of Philadelphia, and the Very Rev. J. P. D. Lloyd, of Halifax, will make opening addresses.

## ST. ANDREW DRAWS WORLD CHURCHMEN

**Brotherhood Opens Great International Convention at Chicago**

Chicago, Sept. 18.—Religious statesmen and educators from all parts of North America, as well as the foreign missionary field, have gathered here for the programme of the International Convention of the Brotherhood of St. Andrew, which will be held at the University of Chicago, September 19 to 23.

The celebration at St. James Church of the fortieth anniversary of the founding of the first chapter of this world-wide religious fraternity will be a feature of the convention. A five-day conference for boys enrolled in the Junior department of the brotherhood also will be held.

The brotherhood was founded in 1883 by James L. Houghteling, a Bible class teacher, and subsequently became national and later, international in scope. It includes organizations in the United States, England, Scotland, Ireland, Canada, Australia, New Zealand and the West Indies. The convention is expected to bring together the largest group of men and boys ever seen in the history of the Episcopal church for a like purpose.

Conservation of manhood in service is to be the theme of the conference. Edward H. Bonnell, of Philadelphia, president of the Brotherhood of St. Andrew in the United States; Dr. Nathaniel Butler, of the University of Chicago; the Rev. Sheldon M. Griswold, bishop suffragan of Chicago; the Hon. Franklin Spencer Edmonds, of Philadelphia, and the Very Rev. J. P. D. Lloyd, of Halifax, will make opening addresses.

Following a business session Friday morning a joint meeting of the Brotherhood of St. Andrew in the United States and the Brotherhood of St. Andrew in the United Kingdom will be continued in the afternoon with an address on "The New Challenge of the Junior Brotherhood" by G. Frank Shelby, of Philadelphia, general secretary of the national brotherhood.

A foreman superintending the laying of some pipes was asked by a man for a job.

Foreman: "Why, man, we've nearly finished it."

Applicant: "Well, you'll not get done any quicker by setting me on."

## JUGO-SLAVIA CLAIMS DIPLOMATIC VICTORY

Belgrade, Sept. 18.—While Jugoslavia was celebrating the fifth anniversary of the capture of Monastir and the piercing of the Salonika front, news was spread yesterday to the effect that Jugoslavia had scored a diplomatic victory over Italy—that, as the matter was represented here, the octogenarian Premier Pachitch, bullock of Jugoslavia, had beaten the young and aggressive Mussolini in points in the duel over Fiume.

Italy will have Fiume, public opinion agrees; but she will pay for it by concessions on the Italian littoral, which the Jugo-Slavs consider an adequate equivalent, and it is confidentially predicted by the Jugo-Slavs that the port to be developed in the vicinity of Fiume will "make the grass grow on Fiume's quay" within two years.

Details concerning the resumption of negotiations between Jugo-Slavia and Italy are being kept secret by the Foreign Office, and the names of the negotiators are withheld, but it is generally believed the conversations are being carried on by Pachitch and Mussolini personally.

As to Jugo-Slavia's strength, it is declared here that she can mobilize two million men within twenty-four hours. At present there is a deficiency in artillery ammunition, but this can shortly be met.

The supporters of M. Pachitch maintain that he played his trump cards in using his influence with France. He is inducing Premier Poincare to bring about quick action in the French Parliament on the 300,000,000-franc loan to Jugo-Slavia.

The trip here of Marshal Franchet d'Esperey, of France, who accompanied Premier Pachitch upon Geneva, is regarded as another fine stroke on the part of the Premier, as the marshal's stay in Serbia has aroused a great wave of popular enthusiasm.

The Jugo-Slavs were heartened by the failure of Mussolini to assume "Liberty of Action" on September 15, as he had declared he would, and it is now believed that the affair will be settled through negotiation.

Great importance is attached to the signing of the Rapallo treaty with the League of Nations, thus making it an internationally recognized instrument.

**LANGFORD NEWS**

**Special to The Times**

Langford, Sept. 17.—The vocal pupils of Dr. Di Castri, of Victoria, who is now on a visit to Italy, were entertained at a musicale held at the home of Mr. and Mrs. Smedley at Langford, on Saturday afternoon.

The selections given during the afternoon were of the highest order, the keynote of the entertainment being loyalty to the absent master.

Solos were rendered by Mrs. D. B. McConner, Miss F. G. Aldous, Miss Jenny Stubbs, and Mr. Frank Smedley. Mr. Chris Wade accompanying the singers in his usual brilliant style. Dainty refreshments were served by the hostess, Mrs. Smedley.

At the September meeting of the Langford branch of the W.A. which was held at Langford, the treasurer, Mrs. H. A. Hincks, reported the result of the gala afternoon held recently at Langford Lake, when the gratifying sum of \$79.62 was realized. The report was received with much satisfaction by the members, and the money was forthwith paid into the church building fund. It was agreed on motion to pay the sum of \$225 into the church building treasury, and the members will continue working with the object of holding a Christmas sale for the further benefit of the fund.

The report of the work of the Junior branch was given by the superintendent, which stated that the work was progressing very favorably, and that the meetings will now be held in the schoolhouse every Monday after school hours.

## THE LEAGUE OF NATIONS

There will be many views upon the wisdom or otherwise of the policy which the League of Nations is pursuing. Those who are doubtful of its immediate usefulness or efficiency, either from personal study or through reasons of national sentiment, will miss that enthusiasm which the people of the member states are hopefully sharing. But the chief point for the world as a whole to bear in mind is that there are only a few professional trouble makers who will argue against the necessity of universal co-operation in the cause of universal peace.

Our neighbor to the South is not a member of the League of Nations. She is not yet convinced that the Covenant furnishes the shortest or most effective route to the desired objective. But there is no more peaceful nation in the world than the United States. Her traditional policy writes "verboten" against armed conflict. For the time being, however, the fifty-two member states are denied the influence of 110,000,000 people.

Sir George Foster believes in the League of Nations because he has seen it in active operation and understands its works. After he has delivered his message to Victoria this evening we shall be surprised if the people of this city do not form their own branch of the League of Nations Society. All those communities through which the Canadian Vice-President has passed have followed this course as their dutiful acceptance of their own obligation to do everything possible to make the League a real and lasting force for good. Nor must it be supposed that the official attitude towards the League in the United States is by any means common among the people. There is already a large body of public opinion across the border that would willingly add the whole influence of the republic to that which constitutes the present membership of the League.

The League has been assailed because it did not deal with the Graeco-Italian dispute as if it had had an international force ready to impose its decrees. Mr. Lloyd George says the League has abdicated in favor of the Council of Ambassadors. But all these critics seem to ignore the prime fact that war between Italy and Greece was avoided because it was possible for the League to co-operate with the Council. Will the sceptic seriously suggest that war would have been avoided if the moral force of more than half a hundred states had not been thrown against the hasty judgment of one of the League's charter members?

We venture to suggest that the organization in session at Geneva—an organization incomplete in its machinery and without that quota of influence and assistance which it deserves—saved Europe from another nasty mess. It was a supreme test; but the League justified its existence.

## WHERE IS THAT NEW ACT?

Just before he went North a few days ago the Leader of the Opposition informed the people of the Province that he was "through with hammering these fellows over the Bay." From that time on he intended to take the public into his confidence and formulate "the policies which we will put into force when we get into power and take over the government of the country."

Where is the new act and what discussions have taken place so far? Reports of his meetings that have reached the Coast newspapers, to say nothing of the longer accounts contained in the press of the localities through which his tour has taken him, might have been clipped from any newspaper file embracing issues containing sectional reports for the last five years.

Surely Mr. Bowser does not mean to disappoint an expectant public. And to enroach upon the humorous offering which the "bill" for the tour promised would be an unkind gesture towards Mr. Pooley. The member for Esquimalt was advertised by his chief as the exponent of the famous "prune juice side-line." In that capacity he left on his first political visit to the North.

It is therefore up to the Leader of the Opposition to produce his "entirely new act."

## "O CANADA"

It will be gratifying to most people in this country to know that the delegates to the annual Conference of the Association of Canadian Clubs are giving close attention to the subject of a standardized version of "O Canada." It may be some time before general agreement produces a Canadian anthem that will satisfy those who still cling to their own particular transcription. But as long as a lively interest is maintained in the fundamental principle of one version and one version only there is hope that gatherings of a national character will not be treated to the confusing mixture that is all too frequent at present. As a result of the initiative which the Canadian

Clubs have shown some general agreement may be reached earlier than expected. In the meantime, however, would it not be a good idea to invite suggestions for a new anthem that will more nearly coincide with the individualistic sentiments embodied in the several versions now in use? A reasonable prize might result in the unearthing of some brilliant talent and an "O Canada" on which the country could let itself go with all its lung power.

## THE OLD CRY

Suggestions that the question of asking the people whether they favor the open sale of beer and light wines in public places are still being persisted in. The latest speculation is that the importation phase of the liquor controversy shall be submitted with the question which Manitoba so emphatically decided after that Province had given its verdict in favor of a plan similar to our own.

We contend that the Legislature has exhausted itself on the beer and light wine issue as originally understood—and there is no new angle to the old cry for a half way return to the bar—and its time could be employed to better advantage. Matters of public health and good roads are a great deal more important than a serious debate as to whether it shall be possible for people to obtain liquid refreshment without as much formality as is required under the system ordered by the electorate. If it has a couple of hours to spare at its next session, however, it might try and give the term "public place" a meaning that will be clear to all concerned.

Few will agree with The Vancouver World's contention that the present Act, when passed, was tentative. Except in one or two particulars the law represents what the people asked for. They expected private importation to cease and the last thing that they expected was any sort of return to public sale—such as the beer and wine exponents are advocating.

## Note and Comment

Berekeley has been hard hit by fire which started in the woods. There are fires still raging in British Columbia. Let this be a warning to people using our "natural scenery."

There is a little fight going on near the Brazil-Uruguay frontier. It must be a job for international statesmen these days to remember which scrap they are trying to settle. Fighting still seems to be epidemic amongst the peppery peoples.

Lord Birkenhead is expected in Victoria towards the end of the present week. If he shall be prevailed upon to deliver an address here he can be sure of an interested audience. He is a brilliant speaker and is never guilty of saying what he doesn't mean.

No United States members of the Ship Owners' Association will participate in the Canadian grain carrying trade this season as long as the principle of filing tariffs shall be insisted upon. As long as the country's crop can reach the necessary markets the West will take comfort from this decision. It is bidding for the business.

What does it matter how war between Italy and Greece was avoided? Why belittle the efforts of the League of Nations because it did not tell Mussolini what he had to do or suffer the consequences? Some prominent politicians and not a few statesmen are more like school children than grown men.

## Some Thoughts for To-day

For as one star another far exceeds,  
So souls in heaven are placed by their deeds.

Robert Greene.

A daring pilot in extremity;  
Pleas'd with the danger, when the waves went high  
He sought the storms.

Dryden.

The desire of the moth for the star,  
Of the night for the morrow,  
The devotion to something afar  
From the sphere of our sorrow.

Shelley.

Decide not rashly. The decision made  
Can never be recalled. The gods implore not,  
Plead not, solicit not; they only offer—  
Choice and occasion, which once being passed  
Return no more. Dost thou accept the gift?

Longfellow.

## Our Contemporaries

**EVERYBODY WORKS BUT FATHER**  
Kingston Standard.—It will be interesting to see what Premier Ferguson proposes to do about home work. At present many pupils have to work longer hours than their fathers, and it is both absurd and wrong that they should.

**ASTRONOMICAL DISTANCES**  
Montreal Gazette.—How many people have any conception of what is meant by fifty-two thousand million miles—the approximate distance of the giant double star recently discovered by the director of the Canadian Government Observatory at British Columbia? Compared with that immense gulf, the sun is rubbing shoulders with us, so to speak, though it is never nearer than 93,000,000 miles.

**BUFFALO FARMING PROFITABLE**  
Regina Leader.—The herd of buffalo in the national park at Wainwright has grown so large that it now taxes the capacity of the range and is increasingly difficult to handle. So an order has gone forth to kill 2,000 head this year and sell the meat and hides. The Canadian government created this herd in order to preserve the buffalo from extinction. It now discovers that it has made a profitable investment. As long as the herd continues to increase at the present rate, a tax can be taken out of it annually.

## The WEATHER

Daily Bulletin Furnished  
by the Victoria Meteorological Department.

Victoria, Sept. 18.—5 a.m.—The barometer remains high over Northern B.C. and fine, warm weather is general on the Pacific Slope.

**Reports**  
Victoria—Barometer, 29.98; temperature, maximum yesterday, 70; minimum, 51; wind, 2 miles S.W.; weather, clear.  
Vancouver—Barometer, 29.95; temperature, maximum yesterday, 68; minimum, 50; wind, 4 miles N.; weather, clear.

Kamloops—Barometer, 29.98; temperature, maximum yesterday, 70; minimum, 51; wind, 2 miles S.W.; weather, clear.  
Prince Rupert—Barometer, 29.98; temperature, maximum yesterday, 62; minimum, 50; wind, calm; rain, 12; weather, cloudy.

## LONELY SETTLER INVITES SYMPATHY OF NEIGHBORHOOD

(Continued from page 1.)

Mr. Stead's View  
Mrs. Raymond, of St. John, read a statement on Canada's immigration activities prepared by Robert J. C. Stead, Director of Publicity, Department of Immigration and Colonization.

"If the development of Canada were to continue in the future as in the past immigration with most of her resources," she read, "only a few of Canada's resources have been developed up to the present it was admitted and man power and capital was needed for greater development. In the past they had looked with some complacency on the fact that Canada had not made the most of her resources, but the war had brought about a change, and Canada was now facing obligations particularly in her national life and in her railway undertakings, which, however, were not great compared with resources, but which made the development of those resources more necessary."

**A Nation of Immigrants**  
The importance of Canadian immigration would better be appreciated when it was remembered that every man, woman and child in the Dominion, except the Indians, was either an immigrant or the descendant of an immigrant. A large portion of the population, particularly in Western Canada, had themselves been immigrants and only a few could trace their ancestry back to more than two or three generations.

"The increase in the population of Canada was due to the solution of the problem of developing her resources, provided they could profitably employ and assimilate this increase into Canadian life."

**Agricultural Immigrants**  
The speaker outlined the Government's plan to encourage immigration. Canada's campaign, she said, was at present chiefly carried on in Great Britain and the United States. These activities in recent years for industrial reasons had been limited almost entirely to bring to Canada persons who would engage in farming either as owners or as laborers, or who would take up the work of domestic servants. The countries in which such settlers had been sought since the war had been the United Kingdom and the United States. No aggressive immigration propaganda had been carried on in any other country, although settlers from Northern Europe, including particularly Norwegians, Swedes, Icelanders, Danes, Hollanders and Belgians, when coming within the clauses mentioned, are always desirable.

## Adequate Man Power

The gradual return of normal conditions since the war, and the recognition of the fact that Canada's development could not proceed except with the assistance of adequate manpower, had led to a certain relaxation of restrictions upon immigrants entering Canada. There was, however, no relaxation in so far as the physical, mental and moral condition of the immigrant was concerned.

The question of assisted immigration had received a great deal of consideration, and had been discussed in Parliament. While no lavish policy of assisted immigration was proposed arrangements are being entered into with the British Government Overseas Settlement Board for co-operative action in settling a limited number of immigrants to Canada. It is expected that this year assistance will be extended to about five thousand children, four thousand domestic workers, and about four thousand farm laborers and others. The assistance is in the form of the payment of the passage or a portion of the passage of the immigrant. In the case of the children it is an outright gift, but in the case of others it is a loan, to be repaid.

The nominated passage scheme under which an individual or organization may nominate a certain person or persons for assistance, the nominator guaranteeing the repayment of the loan, and immigration publicity work were outlined.

## Flow to West

Mrs. Bryant, of Regina, read a paper for G. R. Dolan, president of the Regina Club, and W. A. MacLeod, vice-president and secretary-treasurer of the Canadian Club, in the course of which she stated that it would be to Western Canada that the stream of incoming population would flow in the greatest volume when the tide of immigration again set this way. Western Canada welcomes these newcomers—but is heartily in accord with the steps that have been taken to sift the wheat from the chaff and allow only selected immigrants. Canada is beginning to scrutinize more carefully those who enter, and to turn back those that would be a menace to those already here," he declared in the paper.

Scandinavia, Russia, Austria, and

P.O. BOX 342, VICTORIA

Germany, Poland and other European nations have supplied many thousands of Saskatchewan's total population of 753,000. Immigrants from Iceland, Denmark, Norway, Sweden and Holland were so closely akin to the Anglo-Saxon race and come from a far better in the past generation, where democratic forms of government have long been established, and there is no immigration problem concerning the Scandinavian races, except the problem of persuading enough of them to come to the prairies. The general consensus of opinion, both spoken and written, would be to emphasize the fact that immigration should be encouraged only from certain countries, such as the British Isles, Holland, Belgium, Norway, Sweden, Iceland and certain other European countries.

No danger of a permanent loss of population through the drift to the south should be felt. The migrating instinct may some years draw more from Canada to the United States, but agricultural conditions were, on the whole, far better in the prairie provinces than in the states to the south of the line. A large number of settlers from the States, and the return of thousands of former Canadians, was confidently anticipated.

**Canadian History**  
The discussion on Canadian history continued at this morning's session by Dr. A. O. MacRae, who stated that one of the reasons why the youth of to-day lost the respect and reverence for Canadian institutions was due to the lack of history and knowledge of history. Canada's history was the background of civilization. The youth of the country needed a background for their life, and that background was to be found in Canadian history.

He mentioned that in Calgary the Canadian Club arranged for the publication of a series of articles on history.

Mrs. Hume, of Regina, started a discussion on text-books when she asked if text-books used in the public schools of Canada were written by American authors.

Dr. A. O. MacRae, of Victoria, replied that such was not the case in British Columbia.

J. F. Clary, of Calgary, mentioned that he had read an article on the Toronto Globe in which this matter was referred to, in which inaccuracies in figures in text-books published in the United States for Canadian schools received attention.

**A Canadian List**  
He also spoke of the publication of articles on Canadian history and the distribution of books on Canadian history.

**Historical Subjects**  
He quoted the Calgary Canadian Club's list of subjects and contributors: Jacques Cartier and Canada, Dr. J. McCarty Wilson; The Hudson's Bay Company, Mr. Justice Clarke; Madeline de Vercheres, H. W. Lunney, B.A., K.C.; Halifax, Canada's Eastern Outpost, J. E. A. Macleod; The United Empire Loyalists, L. F. Clary, K.C.; Sir Alexander MacKenzie, Dr. A. O. MacRae; The Battle of Lundy's Lane, J. W. Huggins, K.C.; The First Steamship to Cross the Atlantic, J. A. Irvine; Lord Durham's Report—Rebellion of 1837—Conditions in 1840, J. A. Valiquette, L.L.B.; The Battle of Queenston Heights, A. G. A. Clowes; The Early Jesuit Missions, Rev. Father Cameron; Founding of Montreal, Rev. H. H. Bingham; Wheat First Sown in Canada, C. O. Smith; Heroes of the Louisbourg, Alex. Calhoun; Treaty of Utrecht, 1713, Cession of Acadia

## FARMING PROSPECTS PLEASE SETTLERS

J. Haggerty, From Nebraska, Finds Vancouver Island Best For Producer

J. Haggerty, a farmer of Nebraska, who visited this city last year and was much struck with the beauty of the country and the possibilities in the farming districts, has returned to Victoria, with his family, and taken up his residence in the Happy Valley district, a few miles from Colwood. There he has acquired an extensive piece of acreage, where he intends to start farming in a general way.

He will begin his farming operations by purchasing about 200 chickens, several cows and a few pigs. The land which he holds at present, has already been set out in small fruits to some extent, and Mr. Haggerty has decided to put in a few acres of vegetables.

"There is one feature about this country," said Mr. Haggerty, "which makes it most attractive to me, and that is the mildness of the winter season. Unlike Nebraska, there are no serious hail storms which damage the crops and make farm life constantly a source of anxiety. There is very little snow, and not too much rain, and with a little care the frost will not harm even the earliest vegetables."

"There is an excellent opportunity for even the small farmer on this island," he continued, "and the district wherein I am settled affords a good future from the farmer's point of view." Mr. Haggerty told officials in the Chamber of Commerce yesterday that compared to Nebraska farm lands, the farms of the southern portion of Vancouver Island were "a holiday."

The Chamber of Commerce has been working hand in hand with the Victoria and Island Publicity Bureau, endeavoring to bring to this island settlers, and particularly men for the soil. Mr. Haggerty is only one of the many who have come here from other parts of the world and found the existing conditions most satisfactory.

## SLIPPED TO DEATH

St. Hyacinthe, Que., Sept. 18.—Slipping from the dew-covered roof of a partly-constructed building here yesterday, Henry Jichit, fifty-eight, a roofer, fell thirty feet to his death.

## WRITER PLEADS FOR CANADIAN AUTHORS

Explains Object of Book Week to Delegates at Convention

A diverting but at the same time effective plea for Canadian literature was launched by T. Murray Gibbon, of the Montreal Club, at the Association of Canadian Clubs to-day. The distinguished Canadian novelist, in the course of his remarks under the heading of "Canadian Book Week," stated that Canadian writers were far better known in other countries than they were in Canada. The speaker remarked that Sir Gilbert Parker was better known in Great Britain than in Canada. The last country to recognize him was his native country. Dr. Bliss Carman had twenty-eight volumes published outside of Canada, almost entirely in the United States, and it was not until his twenty-ninth book was to be published that a Canadian publisher came forward. Arthur Basil King told the speaker that his Canadian royalties were almost negligible. Arthur Stringer was in the same position until a few years ago.

"We do not ask to be overwhelmed with royalties," commented the speaker, but we should like to get at least the equivalent of a bell boy at the Empress Hotel.

The contribution of authors to national life was not sufficiently realized in Canada, the speaker thought, and Book Week was one of several schemes of Canadian authors to extend the reading of Canadian books among Canadian people. Writing for the American market authors undoubtedly had to color their writings to a certain extent, and their writings consequently had a tendency to become more American than they otherwise would do.

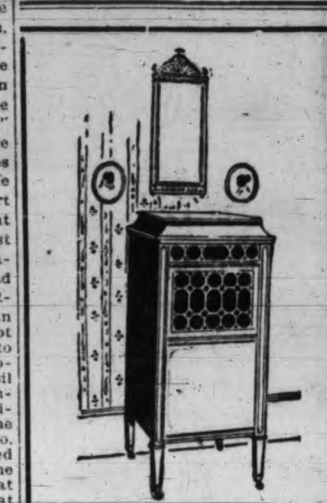

The speaker humorously referred to a Canadian author leaving seven copies of his book with a publisher and having eight returned.

Mrs. Bonnell Porter, of Montreal, supported Mr. Gibbon.

## SPECTACULAR RESCUE

Ridgedale, Sask., Sept. 18.—Heroic efforts of Mrs. Sam Carlson and Miss Irene Carlson saved the lives of the former's four children when they car-

ried them through flames and smoke in a spectacular \$25,000 fire which started in a restaurant here early this morning. The women and children escaped in their night attire. This morning nothing remains on the east side of the main street but the Bank of Hamilton and only for the fact that the wind was coming from the south saved the whole town from total destruction. Eight buildings were destroyed.

### REHEARSALS FOR "CREATION"

This evening commencing at 8 o'clock promptly the rehearsals for the oratorio "The Creation" will commence. The rehearsals will be held in the First Presbyterian Church schoolroom. The practices will be held every Tuesday.

For Japanese Relief — To raise funds for the Japanese relief fund, the S.O.S. Club has arranged for an entertainment at Harmony Hall on Wednesday evening at 8 o'clock. H. Maynard will give his lantern lecture on "Early Days in Victoria." There will also be a musical programme and refreshments will be served. A collection will be taken for Japanese relief.

## PROVINCIAL W.C.T.U. MEET NEXT WEEK

Forteenth Annual Convention  
in Vancouver; Busy Programme

Vancouver, Sept. 18.—The members of the local unions of the Women's Christian Temperance Union are anticipating a splendid attendance on Tuesday next, when the provincial body will meet for the fortieth annual convention in the Mount Pleasant Presbyterian Church, of Vancouver.

The morning session will open at 9.30 with a consecration service led by Mrs. Turnbull. Appointment of committees will follow. The corresponding secretary, Mrs. Lanning, will submit her report and will be followed by Mrs. Yapp, the "Y" secretary, Mrs. Williscroft, and the L.T.L. secretary, Mrs. Bevan. These will be followed by the departmental reports of parliamentary usage, fair work, Sabbath observance, work among railroad employees, parlor meetings, curfew bell, medical temperance, soldiers and volunteers, evangelistic, law, anti-narcotics, public meetings, press and tower mission. At luncheon greetings will be received from organizations.

In the afternoon Mrs. Forrester will give a paper on "Clives," and a discussion and conference will be led by Mrs. J. A. Gillespie. In the evening Rev. A. H. Sovereign will address the meeting and a grand gold medal contest will be held under the direction of Mrs. Edgett.

Election of officers will be held on Wednesday morning and the continuation of departmental reports will be heard, including missionary, legislation and petition, sailors, lumbermen and miners, literature and depositary, moral education, Little White, Rib-day schools, Canadianization and missionary work. The reports of Vancouver district secretary and treasurer will be read at this session. A paper on "Temperance Advertising and the Press" will be given by Mrs. Sturdy, and the afternoon Mrs. J. Macken will also speak on scientific instruction and Mrs. Edgett will explain the part which medical contests will be followed by a conference on "Y" work, led by Mrs. Williscroft.

Rev. A. E. Cooke will speak in the evening and the provincial president, Mrs. T. H. Wright, will present her annual address. Miss Wark, of Victoria, will report on the provincial W.C.T.U. home. Mrs. Cantell and Mrs. Allen will lead the conference and discussion on Thursday morning. The report of the plan of work committee will also be heard and a memorial service conducted by Mrs. Turnbull.

Superintendents and the board of management of the provincial home will be appointed in the afternoon. The reports of the committee on resolutions and the budget will be read. Miss Mary Bollert, dean of women at the University of British Columbia, will speak on girls' work at the closing session on Thursday evening.

The "Y" girls, under the direction of Mrs. Williscroft, will stage an elaborate pantomime, "Canada's Call to Her Daughters," at eight o'clock.

On Monday, October 1, the First Presbyterian Church Sunday School will hold the annual rally day concert.

The programme this year will be more interesting than ever. The programme will be divided into two parts, the first part will take place in the church hall, the items will include songs by the juniors, instrumental music and vocal solos and duets by some of the best talent in the city. The Pas-a-Pas Young Ladies' Bible Class will contribute a chorus also, and there will be a number of new and novel features of interest to both young and old.

The second part of the programme will be held in the gymnasium of the church when a very interesting programme of stunts, burlesque, basketball match will be arranged by Varren Martin. The committee in charge of the rally day, arrangements are hard at work to make this year the best in the history of the Sunday school.

## IN WOMAN'S DOMAIN

## WILL VISIT CITY WITH PRESSWOMEN

Mrs. Hugh Pringle, Formerly  
of Victoria to Attend  
Convention

Among interesting personalities expected here with the Canadian Women's Press-Club Convention is Mrs. Gertrude E. Pringle, daughter of Enoch Thompson, of Toronto, and niece of Ernest Seton Thompson, the well-known naturalist and writer. Before her marriage Mrs. Pringle was well known in the newspaper world, and while in Edmonton was associated with the Hon. Ella Scarrlett-Syngue, M.D., another prominent woman who, coming later to practice near Vancouver, went overseas from there with the Women's Medical Corps.

Mrs. Pringle with her husband, Mr. Hugh Pringle, also made her home in Victoria for several years, leaving here in 1915. After her husband's death she was connected with one of Vancouver's newspapers, but left the Coast two years ago to make her home in Toronto, where she is a staff writer on Maclean's Magazine, and has written articles for the Modern, Frisilla, Toronto Star Weekly, Toronto Saturday Night, Sunday World and Christian Science Monitor.

Her father, Mr. Enoch Thompson, who is Spanish Consul in Toronto, recently paid a visit to that country and was received in audience by King Alfonso, his experiences forming the basis of a series of interesting newspaper articles, which were later published in book form in response to popular request.

Other presswomen coming will include Miss Houston, for the past twenty years a member of the editorial and news staffs of The Herald and The Mail, Halifax, Nova Scotia, and Miss May Clendennan, of Winnipeg.

Guests staying at Strathcona Lodge, Shawanigan Lake during the last week included Mrs. E. Pearce, Mr. F. E. Young, Mr. G. W. Newton, Miss Sylvia Appleby, Miss Helen Macdonald, Mr. Oliver Pauline, Victoria; Mr. and Mrs. G. E. Williams, Mr. J. C. Minn, Mr. J. Wright, Mr. and Mrs. W. H. Spawen, Mrs. A. E. Rudbeck and Mr. and Mrs. E. B. Rudbeck, Seattle; Miss Edith John, Mr. and Mrs. Withers, Miss Withers, Mr. G. Withers, Mr. Withers, Mr. and Mrs. G. A. King, Mr. and Mrs. J. McD. Grosart, Vancouver; Mr. and Mrs. E. C. Macdonald, Calgary; Mr. and Mrs. E. P. Emmons, Britannia Beach; Mr. and Mrs. J. Cowie and Miss Cowie, Nanaimo.

(Continued on page 2.)

## MUNICIPAL CHAPTER, I.O.D.E., WILL MEET

The Municipal Chapter, I.O.D.E., will resume its meetings on Thursday afternoon at 2 o'clock in the headquarters, Jones Building, when a large attendance is requested.

## Careful Buyers!

those who want the utmost in style for their money, will find our shop the place where they can fulfill their desire. Here we are showing a carefully selected line of Ladies' Garments that in these days when money is worth so much, will appeal to our friends. We ask you to come in, look our stock over carefully and we leave it to your judgment. Do so at your first opportunity.

## Kumtuku Make Plans For Active Winter Programme

Business meetings which were suspended during the Summer months were renewed by the Kumtuku Club last evening, when a large representation of members gathered in the Alexandra Club, Pemberton Building. Miss Lottie Brown presided.

Tentative plans were made for the Winter's work, the members deciding to concentrate their endeavors on one particular project. The nature of this work will be decided at a later meeting, pending the report of a special committee appointed to look into the matter. It was reported that during the Summer the members had not been "idle" in doing good; among the various activities was the conducting of an ice cream stall in connection with the special service garden party, netting nearly \$20 for the beneficiary causes. The club had also sent fifty pounds of sugar to the Protestant Orphanage pound party.

A plan from the Red Cross on behalf of the Japanese relief fund met with generous response, the collection taken among the members to be augmented by a similar collection at next Monday's luncheon of the club. One new member, Miss Hayward, was elected. At next Monday's luncheon Miss Donough will be the speaker.

Methodist Women Meet—The Methodist Women's Missionary Society held a most successful rally in the Metropolitan Church Parlor yesterday, seventy-five attending the meeting. Mrs. McComb, the president, was in the chair. Encouraging reports were given by Miss Fullerton

the secretary, who traced the progress of the work during the past year, while Mrs. Read, the treasurer, presented the financial statement. Mrs. Knott was the speaker, taking for her subject "Systematic Giving." After a solo by Mrs. Wilderspin, delicious refreshments were served.

Catholic Silver Tea—The Catholic Women's League will hold a silver tea in the Knights of Columbus Hall to-morrow afternoon at 4 o'clock when a most attractive programme will include selections by Miss O'Neill, Miss Taylor, Mrs. Styles, Mrs. Schi and Mrs. Harry Nesbitt. Mrs. (Dr.) Ryan, of St. John, N.B., who is here for the Canadian Club convention, will be the guest of honor. An invitation has been sent to the parish of the Willows and Esquimalt to attend the affair.

## For Mothers—"FRY'S"

For true nourishment in delicious form FRY'S COCOA is supreme. Make it this way and you will find it most appetizing and digestible. To 3 good teaspoonfuls of Fry's Cocoa add three spoonfuls of sugar, mix well. Then add one half cup of boiling water and mix thoroughly. Add two cups of boiling water and boil very slowly for 5 minutes, stirring occasionally. Then add milk or cream to taste. This will give you Cocoa at its best.

REMEMBER, NOTHING WILL DO BUT FRY'S

## YOUR HOME AND YOU

By HELEN KENDALL

### Ironing Sitting Down

"I don't mind doing the ironing one bit; I love to iron, especially the baby's dainty things and my table linen, but oh, my feet get so tired," was the plaint of a young housekeeper who was trying to do all of her own work, especially since she got the electric clothes washer.

"Well, dear child! sit down to your ironing," exclaimed the baby's grandmother. "You don't have to stand up at that ironing board hour after hour. The ironing of small pieces can be done just as well sitting down as standing up. In fact, only the really large things, like sheets, dresses, and so on have to have a high, free board under them."

"Now sit down in this armless,

cushioned chair, lower your ironing board to the level of your lap, put your basket of sprinkled pieces beside you, and begin. Lay this piece of olecloth over your lap to keep the dampness from coming through, and start all the large things, such as towels, dinner napkins, and shirts, by ironing first the side farthest away from you. As you iron it, let it slip over the edge of the board and hang down the other side. This keeps the ironed garment from becoming mused on your lap.

"If you have a good many things to iron, you'll find it a rest to stand up now and then and relieve the strain on your arms and shoulders. Then when you begin to tire of standing, sit down again. And don't try to do your ironing all up at once, my child. Dampen down a few things at a time—the things you need most—and iron those, leaving others until the next day. It is these long sessions at any kind of work that tire us so much. Take it a little at a time, and sit down to it, and you'll find you do not mind it at all."

## AT THE THEATRES

## ROYAL VICTORIA

The English comedy, "Take Me Back to Blighty," which is the attraction at the Royal again to-day, is a sequel to that other famous English hit, "Me and My Gal."

The cast includes Betty Balfour, England's foremost comedienne, that delighted and droll actress who has taken Canada by storm, and Hugh E. Wright, the funniest bloke in all England. Hugh E. Wright is one of the greatest comedians of all time, and now in England has a bigger reputation than even Harold Lloyd or Charlie Chaplin. Hugh E. Wright had his first important role in the famous "Ole," where he took the part of Alf, one of the three leading characters. After his performance in this role, he became popular throughout all England, and it was not until he took the part of Sam Atkins in the famous comedy, "Me and My Gal," that his popularity reached such a great height, and now once more taking the part of Sam Atkins in "Take Me Back to Blighty," he is again the star of the London bloke who became rich by winning the famous Calcutta sweepstake, value sixty thousand pounds, and here we see him in "Rites of the Country" and "The House of the Dead" on the boulevards of gay Paris.

"Take Me Back to Blighty" went over to unprecedented success in England, even greater than that of "Me and My Gal," and now over there the public are clamoring once more to see Betty Balfour and Hugh E. Wright. As announced, Betty Balfour has just completed a picture which seems to be the biggest one yet, the story of a cockney servant girl in "Mord Emily," and Hugh E. Wright has also completed an uproarious comedy, where he takes the role of a jolly English sailor. The name of this film has not yet been determined, but will probably be "Heave Ho and a Bottle of Rum."

## CAPITOL

What is said to be the biggest enlargement ever made in proportion to the size of the original negative was made at the Paramount studio for use in the filming of the George Melford production, "Salomy Jane," featuring Jacqueline Logan, George Fawcett and Maurice Flynn, which is now on view at the Capitol Theatre.

The enlargement was 18 by 20 feet and was made from a negative of the scene through the window of the saloon at the town of "Red Dog," a mining settlement of the gold rush days, in and about the scenes of "Salomy Jane" are laid.

The original photograph was snapped through the doorway of a cabin in Boulder Creek canyon, California. The enlargement was used in connection with sets built at the studio in Hollywood, showing the interior of the same cabin. Only a glimpse of the outdoors can be seen through the trees beside the window, but even this glimpse is made to appear identical with the original scene.

## CLEVER VICTORIA ACTRESS

## AT THE THEATRES

Columbia—"A Rogue's Romance"  
Royal—"Take Me Back to Blighty"  
Capitol—"Salomy Jane"  
Dominion—"Hollywood"

## DOMINION

The Indiana town used as the locale for the start of James Cruze's new Paramount picture, "Hollywood," before the action moves to the western film capital, had two clubs—the Purty Club and the Pressing Club. They had nothing to do with the picture.

Lem Letters, the hero, played by George K. Arthur, pressed pants for a living; the members of the Purty Club, went about pasting blanks over the nether limbs of ballet dancers in posters and blotting out such objectionable things as "dam" in Amsterdam.

The humorous small town note is one of the entertaining features of the picture which gains its greater impetus when it reaches Hollywood. There the galaxy of stars and notables of the screen world enter into the story and the result is not a peep into movieland, but a wide open view of the active and industry of busy community.

It is the real, wholesome, enterprising and amusing successful Hollywood that is shown; the studios that are places of business, workshops, art studios—as they are in fact.

Romance, yes. But that which is interesting is the Indiana family in the far west affair, laughter and a little pathos, and the picture which is the second of the Dominion Fall season of super productions will be the big feature at the Dominion Theatre all this week.

## COLUMBIA

A compelling drama, ending in a crashing climax, describes "A Rogue's Romance," which was the chief attraction at Columbia Theatre last night. Earle Williams has never so completely triumphed in a characterization as in that of Mons. Picard.

Rodolph Valentino literally danced himself into added laurels, for he gives an actor's role in a cabaret dancer. Those who have admired Valentino's work as an actor will be given an added treat in "A Rogue's Romance," when in addition to being him in a trying and exciting role of a dancing man, he is a Paris cafe.

Of the picture itself, much may be said. It is action, romance, drama, comedy. It has lights and shadows, and a story of real merit, two of the most popular stars of the screen, a director in James Young, who is second to none, and a cast including such popular players as Brinsley Shaw and Kathryn Adams.

Skilfully threaded through the story are gay ballroom and tavern scenes, flashes of night life, the mysterious comings and goings of masked criminals, narrow escapes, the skilful cunning of the Paris police, and the world appeal of little children and romance.

It is a picture that will be talked about because it is different from the ordinary run of films.

WHEN WRIGHT WAS WRONG

Flattenflat had arrived home late from the office, and his wife was of the sort of woman to let a thing like that pass unnoticed.

"Why didn't you catch the 7.30 train home to-night, Herbert?" she demanded.

"Well, you see, dear," replied Herbert, "I asked a porter from which platform my train started, and he said if I turned to the left I'd be right."

"Well, didn't you?"

"Unfortunately, no, dear," replied her husband. "A little mistake on my part. I turned to the right, and was left!"

## COMING TO PLAYHOUSE

Following the auspicious commencement of the Winter season made last week, when "A Message From Mars" once more proved its great popularity, Mr. Compton announces for this week's attraction that inimitable super-comedy, "Cappy Ricks."

Those who read the stories of the same title which appeared in The Saturday Evening Post, will recall the stir they created at the time they were written, and how eagerly they were read.

Mr. Compton will himself play Cappy, and in the role of that excitable yet lovable old man he will find full opportunity to display those talents which Playhouse patrons have come to expect from him.

Miss Peggy Dundas will play Cappy's daughter Elaine, a part that will display to the full her winning charm and graceful talent. All the other members of the company are cast in roles ideally suited to them.

New scenery is being built by Mr. W. R. Campbell, and the scenic artist, Mr. W. Bullock, is putting some of his best work into the painting of the sets. Mr. Bullock's work for "A Message From Mars" was, specially commented on, and is an indication of the artistic manner in which Playhouse shows will be mounted during the season.

The Playhouse string trio will furnish a completely new programme, and further strengthen the already strong position they have assumed in the good graces of the theatre patrons. Early reservations of tickets are desirable.

WHAT A GARDEN

A certain city clerk never missed an opportunity of boasting about his garden to his colleagues, who, however, were never given a chance of inspecting its wonders for themselves. Day by day he enlarged upon it until it assumed the proportions of a young park.

At last five of his fellow-workers resolved to call upon him one Saturday afternoon and see this marvelous garden for themselves.

On being reluctantly taken through to the rear of the house, judge their surprise on seeing a backyard about twelve feet by ten. One bold spirit ventured to remark that it was not very big.

"Big?" asked the boaster, with well-assumed surprise. "Big? Why, man alive, look at the height of it!"

"Big?" asked the boaster, with well-assumed surprise. "Big? Why, man alive, look at the height of it!"

"Big?" asked the boaster, with well-assumed surprise. "Big? Why, man alive, look at the height of it!"

"Big?" asked the boaster, with well-assumed surprise. "Big? Why, man alive, look at the height of it!"

"Big?" asked the boaster, with well-assumed surprise. "Big? Why, man alive, look at the height of it!"

## LOCAL RED CROSS AIDS REFUGEES

Twenty-Five Being Cared For at Quarantine Station; Money Needed

Few persons, except those immediately in touch with the organization, have any conception of the magnitude of the work undertaken by the local branch of the Canadian Red Cross in connection with the sufferers from the earthquake and fire in Japan. Nor can people realize the extreme need of these sufferers, unless they have been brought into direct contact with them. They are a brave and uncomplaining lot, the band of twenty-five at present housed and cared for at the quarantine station, but they need the material assistance which they are receiving, and they require still further aid in some cases. Most of them have been left quite destitute. They have lost everything they possessed. The scanty clothes which they arrived in were given them by kindly persons on the President Jefferson, or handed out to them at Kobe. These garments were quite insufficient to keep out the cold, which means that the Red Cross will outfit them all completely.

Arrangements had been made at Kobe for sufficient supplies of clothing for all of them. But the Russian refugees who were the first to arrive there, carried off nearly everything. Nor will there be anything more forthcoming from Kobe.

As these men, women and children at the quarantine station are only the advance guard of what may be hundreds, perhaps even thousands, of others, it will at once be appreciated what a large work the local branch of the Red Cross have undertaken.

All of the officials connected with the organization are indefatigable in their efforts towards assuaging the discomfort of these sufferers. But the generous aid of the public as a whole is required. That this will be forthcoming there is no manner of doubt, for the sufferings and deprivations of these unfortunates have touched the hearts of all.

Yesterday the boys of St. Michael's school came forward with an offer to aid in any way possible, and the little girls of St. George's school gave a substantial donation last week.

WASNT A LUMP

To start learning roller-skating at the age of forty, an act the weight of twenty stone, is rather a daring act, but Mrs. Overweight was doing her best.

On one occasion she landed plump on the floor, and several attendants rushed to her rescue.

For ten minutes they made strenuous efforts to raise her prodigious weight, but were unsuccessful.

"We'll get you up in a minute," ventured one, soothingly. "Don't worry."

"I'm not worrying about that," replied Mrs. Overweight. "But it's horrid, your floor is so lumpy!"

"I'm not a lump," came a voice from underneath. "I'm the instructor!"

"I'm not a lump," came a voice from underneath. "I'm the instructor!"

"I'm not a lump," came a voice from underneath. "I'm the instructor!"

## VICTORIA COLLEGE TO OPEN ON TUESDAY

Registrations Pouring Into Officials; Students From Upper Island Coming

Registrations are continually pouring into the officials of the Victoria College here, from both first and second year students, who intend to attend the sessions of the university this year. Already the applications have come close to the hundred mark and the last few days of registration are always the busiest, when the out-of-town students begin to filter into the city. The college has, through its excellent showing both in academic results and athletics, attracted a great deal of attention and made for itself a reputation on the island, as well as on the mainland.

Men and women from up-island points are particularly interested in the local college, affiliated as it is with the University of British Columbia, and under the principalship of one of Victoria's best known educationists, Principal E. B. Paul. The success which students of the first and second years have made in the past has given Victoria College an enviable reputation, and one which, the faculty hopes, will be kept unimpaired through the coming year.

Owing to slight misunderstandings, and a rumor that there were to be changes in the courses at the Normal School next year, the Victoria College lost many students to the former institution, and feels the loss considerably. Mr. Paul stated to The Times this morning that the rumor of changes in the Normal School course was unfounded. For the college, Mr. Paul sees a bright and promising year, however, and the results of the registrations so far have been in every way satisfactory.

The Victoria College is ready to begin its sessions next Tuesday, September 25. It is expected that all those wishing to attend will have registered by Friday of this week. This is the time limit set by the authorities.

## VICTORIA DELIGHTS TICKET AGENTS

Big Visiting Party Shown City by Chamber of Commerce to Urge More Stop-Overs

The 213 members of the American Association of Ticket Agents, who were yesterday entertained here by the Tourist Trade Group of the Chamber of Commerce, pledged themselves in future to endeavor to arrange for tourists coming here to have a longer stopover than has previously been arranged for.

The time between the arrival of one boat and the sailing of the next has been the limit here for almost 90 per cent. of the tourists passing through.

The visitors were driven through the residential district of the city yesterday afternoon in eight-seating cars and private automobiles. Following the motor trip they stopped at the Curtis Point Automobile Camp and enjoyed refreshments. There it was that C. T. Cross, president of the Victoria Chamber of Commerce, addressed them, telling of the many more attractions which Victoria had to offer the tourist, and assuring

them of this city's appreciation of their expected co-operation.

C. I. Schylur, newly elected president of the American Association of Railway Ticket Agents, replied to Mr. Cross, stating that the visitors were exceedingly pleased with the reception given them here, and thought that the charms of the city merited the campaign of advertisement which was being undertaken here. On behalf of the other members of the association, Mr. Schylur pledged their support to the Chamber's plans for the future of Victoria.

## OCEAN AND COASTWISE SHIPPING

VICTORIA GOES  
ON FINAL TRIP  
ON OCTOBER 6

Jacques Cartier, of French Line, Coming to This Coast For the First Time

Seattle, Sept. 18.—The Victoria, which arrived here yesterday from the Bering Sea, brought 250 passengers and a heavy cargo consisting largely of fish and fish products. The Victoria, which shifted to Tacoma, as to leave here October 6 on the last voyage of the year to Nome.

Though only 256 miles from Yokohama at the time of the catastrophe of September 1, the Wheatland Montana, which arrived here yesterday from Dairen, did not go to that port. The Wheatland Montana picked up calls for help from the Selma City, which had gone ashore in a tidal wave. The Selma City was aided by craft in Yokohama Harbor. The Wheatland Montana brought 500 tons from Taku Bar and is to load immediately for a return voyage.

In the service of the Compagnie Generale Transatlantique, the Jacques Cartier will come to the Pacific Coast next month on her first trip, according to advices received here yesterday. The vessel is the largest operated by the company.

Funeral services will be held here today for Captain William H. Reed, sixty-five years old, who died in Santa Ana, Cal., September 8. He was a master mariner out of this port for years before going to California to command a private yacht.

Crops Not Hurt  
by Early Frosts

Winnipeg, Sept. 18.—The past week has been quite favorable for harvesting the crop report of the Canadian Pacific Railway issued here last night. Fairly sharp night frosts affected some unripened crops, but not to a serious extent. Threshing returns up to the present time would indicate that estimates of the crop are to be realized with remarkable good showing from Saskatchewan and Alberta and a fairly good average quoted from Northern Manitoba.

Cutting is completed in Manitoba, the yields are quite diverse, varying in quality and quantity. Wheat is running from five to twenty-five bushels average. Harvest is making satisfactory progress in Saskatchewan, where several hundred acres could be placed now at five and six dollars a day. Some exceptional returns are reported from 45 to 63 bushels an acre are recorded, grading No. 1 Northern and weighing from 62 to 66 pounds.

Cutting is completed at most points on the E. D. & B. C. Railway. Grain is being hauled to elevators and is grading No. 1 and No. 2, the former grade predominating.

Wealthy apples are practically all harvested in British Columbia and picking is now starting on McIntosh, which are a good crop. Tomatoes are moving in large quantities to the canneries, grain crops are good and threshing rapidly nearing completion.

## THE TROUBLE

A more kind-hearted soul than Aunt Maria never existed. On one occasion a neighbor who had looked in for a chat was horrified to see a mouse run across Aunt Maria's kitchen.

"Why on earth don't you get a trap?" she asked.

"Well," replied Aunt Maria, "I did have a trap set, but it was such a fuss. Them mice kept gettin' into it!"

Daniel Kern is  
Reported Safe

According to a wireless message picked up here the tug Daniel Kern, of Seattle, which was feared to be lost off the Northern California coast, is safe. She is reported to be in Crescent City where she will most likely make repairs. The leak is apparently under control. Captain E. M. Morgan is in command of the tug which was on its way to Seattle from San Francisco.

N.Y.K. SHIPS  
RESCUE 3,000  
REFUGEES

Twenty-One Ships of Company Dispatched to Stricken Seaport

A cable to the local offices of the Nippon Yusen Kaisha steamship line states that the N.Y.K. ships in Japan in the course of their rescue and relief work saved the lives of 3,000 refugees from Yokohama during the earthquake disaster, and since then an additional 7,000 have been carried from the stricken seaport to Kobe.

The advices describe the relief work of the Nippon Yusen Kaisha ships as marvelous. The company dispatched twenty-one of its steamships to the devastated port, the vessels taking full cargoes of relief supplies there and returning to Kobe with refugees.

The first full cargo of relief supplies, the advices states, was carried to Yokohama by the liner Yamashiro Maru. The vessel found the inhabitants of Yokohama in a condition of starvation. Other Nippon Yusen Kaisha liners quickly followed, the Yamashiro Maru.

A regular service has been established between Yokohama and Kobe with two sailings every three days. The express liners Nagasaki Maru and Shanghai Maru being detailed to the route. Other vessels of the company are carrying large numbers of Chinese from Yokohama to Kobe and Shanghai without charge.

All members of the company's headquarters force and the Yokohama and Tokyo staffs are reported safe.

UNION HEAD HERE  
FROM INDIANAPOLIS

Typographical Chapels Welcomed W. R. Trotter on Brief Visit Yesterday

W. R. Trotter, first vice-president of the International Typographical Union, visited Victoria on the weekend and spent yesterday with the members of the Typographical Union.

Trotter has been attending the Trades and Labor Congress of Canada at Vancouver during the past week, and was accompanied on his trip to Victoria by George Howard, president of the Winnipeg Typographical Union.

Before attending his present engagement in the Typographical Union and his executive position at the Indianapolis headquarters, Mr. Trotter was a resident of Vancouver, and for many years a member of the staff of The Daily Province, where he earned much respect among his fellow competitors.

At the last election of international officers Mr. Trotter was elected to the office of second vice-president for the usual two-year term, and assumed his present duties upon the recent death of International President McParland. This unexpected advancement brings within the range of immediate probabilities the installation of a Canadian as the head of one of the most important of the great international labor organizations, his present office of first vice-president placing Mr. Trotter in logical succession to the presidency at the next biennial election.

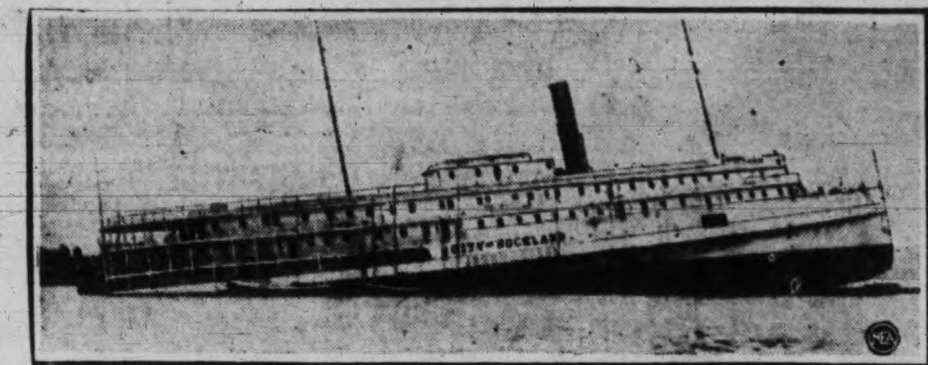

SAW STRANGE  
CUBS NEAR GORGE

R. Oakshot Believes Animals Were Mountain Lion Cubs

Following yesterday's report of deer seen in the precincts of the city, a resident of the Gorge Road, R. Oakshot, this morning informed The Times that while on his way along that road he noticed two strange animals in a field. Their peculiar appearance and short yapping barks attracted his attention, and closer scrutiny revealed that they had long yellowish bodies, short thick legs, rounding ears and rather long tails. Or Oakshot received the impression that the animals were mountain lion cubs, this belief being heightened when one of the animals ran up a tree, jumped over a tall fence and disappeared, the other following.

"Let me kiss those tears away, heart," he said tenderly. She fell into his arms, and he was very busy for a few minutes. But the tears flowed on. "Do nothing stop them?" he asked, breathlessly.

"No," she murmured. "It's my fever; but go on with the treatment."

SEA IS POUNDING THIS BOAT TO PIECES.—The City of Rockland on a reef off Dix Island, Maine, is being slowly pounded to pieces by the sea. It went aground during a recent fog. All of the 300 passengers were safely taken ashore.

JAPANESE EDITOR  
BUYS NEW PLANT  
FOR TOKIO 'ASAHI'

New York, Sept. 18.—The spirit with which Japan will recover from its terrible catastrophe will be exemplified by the activities in New York of Editor Uryama, owner of the Tokyo newspaper Asahi, the entire plant of which was destroyed in the earthquake. Mr. Uryama was a passenger on the Cunard liner Mauretania.

While here he will purchase new linotypes, stereotyping machinery, web presses and everything necessary to the making and printing of a great newspaper. All this machinery will be sent by fast freight to Japan. The editor will visit the newspaper plants of The Tribune, Herald, Times and other metropolitan dailies with a view to purchasing machinery which will revolutionize newspaper printing in Japan.

Prominent passengers arriving on the Mauretania include William K. Vanderbilt, Mr. Edgar S. Auchincloss, Jr., the Misses Katrina, Elsie and Mary Auchincloss, John W. Althouse, of the Althouse Tours, Philadelphia, Jack Amersbach, the well-known diamond merchant; John F. Atkinson, of the Foreign Missions, and Mrs. Atkinson; Maurice and Robert Brill of Brill Brothers, Mrs. Maurice Brill, Mrs. William Hamlin Childs, Mr. and Mrs. F. K. Curtis, the Misses Helen and Cornelia Curtis, Mr. and Mrs. W. Adams Delano, Edward Robinson, of the Metropolitan Museum of Art, and Mrs. Robinson; Thomas S. Gates, Jr., R. M. Hurd, Clement Hurd, Charles P. Livingston, Miss Betty Livingston, Mr. and Mrs. W. W. Montgomery, Mr. and Mrs. Le Roy Munger, Robert O'Gorman, Miss Rose O'Neill, Winthrop James, John Barrymore, Otley Cranston, of the Cranston Opera Company, Kansas City, and Mrs. Cranston, Dr. and Mrs. Edwin F. Seaver.

Canadian Importer—Aug. 2, 2:25 p.m., left Esquimalt for Sydney and Melbourne; August 21, passed Honolulu; arrive Vancouver Nov. 20.

Canadian Prospector—September 9, arrived Newcastle; arrive Vancouver October 15.

Canadian Inventor—August 27, 4 p.m., arrived Vancouver.

Canadian Winner—September 11, 10:30 p.m., arrived Vancouver; sails Vancouver October 20.

Canadian Highlander—August 27, left Shanghai for Vancouver; arrive Vancouver September 23.

Canadian Traveler—August 22, 2 p.m., left Auckland for Vancouver; arrive Vancouver September 21.

Canadian Skirmisher—September 2, 3:30 p.m., arrived Vancouver.

Canadian Freighter—August 25, 3:50 p.m., left Prince Rupert for Yokohama, Kobe, Shanghai; arrive Vancouver November 15.

Canadian Transporter—August 26, 5 a.m., arrived Vancouver; sails Vancouver October 15.

Canadian Scottish—August 18, 6:45 p.m., left Vancouver for Sydney and Melbourne; arrive Vancouver December 1.

Canadian Britisher—August 26, 11 a.m., left Victoria for India; arrive Vancouver January 29, 1924. (To arrive Bombay October 14.)

Canadian Rover—September 13, 11:30 a.m., arrived San Francisco; arrive Vancouver September 20.

Canadian Rover—September 13, 8 a.m., arrived Ocean Falls; arrive Vancouver October 4.

Canadian Farmer—September 14, 4 a.m., arrived Vancouver.

Canadian Volunteer—September 14, 7 p.m., arrived Powell River; arrive Vancouver September 27.

After this is left of four of the seven U. S. destroyers that went on the rocks near Point Arguello, Cal., September 8 at a cost of twenty-two lives and \$15,000,000 in the United States navy's biggest disaster on the Pacific Coast. In the immediate foreground are the mast and charthouse of the Delphy, which led the squadron to disaster in the fog. Three men were lost and many injured on this destroyer. Steady pounding split it in half. The remainder of the boat flew out of the picture to the right. Behind it is the gleaming red bottom of the Young, second to crash, which became a death prison for nineteen men when it turned upside down. The rest of the crew dived or were thrown into the water. The Chauncey and the Fuller are ground further out.

SHIPS RETURN TO  
NOME AS SUMMER  
DRAWS TO CLOSE

Geological Survey Party Return on Motorship Arctic; Other Vessels Due

Nome, Alaska, Sept. 18.—The motorship Arctic, owned by Liebes & Company, of San Francisco, arrived here Sunday after a summer's cruise in the Arctic Ocean. Eleven members of the United States Geological Survey party which has been operating in the neighborhood of Point Barrow returned to Nome on the vessel.

Officers of the Arctic reported the death last year of Martin Anderson, known as "Chechako Martin," at a trading post he had established at Three Rivers, east of Point Barrow. His partner, Pete Brandt, will return to Nome on the schooner Tilly Ford.

With the gradual closing of the summer season vessels from the Far North are beginning to arrive at Nome in numbers. The schooner Teddy Bear, was expected to reach here today, and the Hudson's Bay Company's steamer Lady Kindersley, which has been delayed by engine trouble, will be here within a few days. The United States bureau of education schooner Boxer, with a large number of reindeer and a cargo of coal taken on at Wainwright, is also expected shortly.

## VESSEL MOVEMENTS

San Francisco, Sept. 17.—Arrived: Nome City, Port Ludlow, Cuba, Portland; Chippas, Corinto, American, Baltimore; F. S. Loop, Astoria; Taaka Maru, New York; McLaurin, Bristol Bay; Glendale, Bering Sea; San Francisco, Stockholm; Kewanee, Astoria. Sailed: Willhite, New York; Seattle, Sept. 17.—Arrived: Alaska, Victoria, Admiral Nicholson, Alaska; Santa Paula, San Francisco; Wheatland, Montana; Tientsin; Griffis, Tacoma; Tenspaan Maru, Grays Harbor. Sailed: Julia Luckenbach, Victoria; Eureka, Tacoma; Santa Inez, Motorship; Donna Lane, Everett; Manukal, Honolulu; John C. Kirkpatrick, San Pedro; Yomei Maru, Osaka.

Petersburg, Sept. 17.—Sailed: Admiral Watson, Admiral Evans, southbound.

Everett, Wash., Sept. 17.—Arrived: Santa Inez, Donna Lane, Seattle; Wapama, San Pedro.

Tacoma, Sept. 17.—Arrived: Akutan; Julia Luckenbach, New York; Princess Maquinne, Victoria. Sailed: Griffis, Stewart, B.C.; Jephtha, Valparaiso; Amur, towing barge Baroda; Anyox, B.C.; Wapama, San Francisco.

Sailed: Plymouth, Sept. 17.—Lafayette, New York.

Said the club bore: "Oh, dear, I wonder how long I've been talking; my watch has stopped!"

Said his unwilling audience: "You'll find a calendar in the hall."

NOTED PASSENGERS  
SAIL ON AQUITANIA

New York, Sept. 18.—The Earl and Countess of Castletewart, who have been visiting for the summer with Mrs. S. R. Gunneheim, mother of the Countess, at "The Towers," Elberon, N.J., sailed for Southampton on the Cunard liner Aquitania.

Other notable passengers include David A. Schulte, president of the Schulte chain of cigar stores, who is also president of Park & Tilford, and Mrs. Schulte; Charles Hitchkiss, vice-president of Park & Tilford, and Mrs. Hitchkiss; John Stuart, of Chicago, president of the Quaker Oats Company, Mrs. Stuart and Miss Joan Stuart; H. B. Oakley, London representative of the Quaker Oats Company; and Mrs. Oakley; Sir James C. Calder, of the Chateau Laurier, Ottawa; Dr. Max Thorck, chief surgeon of the American Hospital in Chicago, who goes to Rome to attend the international Convention of Surgeons next month; Mrs. Thorck and Philip Thorck, Mr. and Mrs. Trowbridge Hall, of San Francisco; Dr. M. Yamaguchi, who is on his way to his ruined home in Japan; Mr. and Mrs. C. O'Donnell, the latter formerly Miss Josephine Hartford, of Glen Cove, P. J. Hall, of the Remington Typewriter Company; Charles G. Norris, brother of the author of "The Pit," Mrs. Norris and Frank Norris; Mrs. E. Hollingsworth and the Misses Barbara and Nancy Hollingsworth, of Marblehead, Mass.; Mr. and Mrs. Charles Francis Rogers and the Misses Elizabeth Rogers, Helen Auchincloss and Agnes Melrose, of "Wildwood," Salisbury, Conn.; W. J. Clark, of Clark's Spool Cotton; Henry Sander, of the Metropolitan Club; William Kidston, and Mrs. R. H. Kidston, of Chicago; Mrs. F. J. Haynes, of Detroit, wife of the president of the Dodge Motor Car Company; the Misses Frances and Jean Higgins and Pauline Emmet, of Mt. Kisco, N.Y.; Mr. and Mrs. Leigh Jones and the Misses Edith and Joan Leigh-Jones; Frank Ingham, London representative of the Burrows Adding Machine Company; Mrs. Florence Hearty and the Misses Ruth and Florence Hearty; Colonel Sidney Peel, D.S.O., and Lady Della Peel; W. N. H. Van der Vorm, vice-president of the Shipping and Coal Company; Mme. Corette Vasseur, French modiste of the Hotel Nederland; R. A. Barbary, of the firm that furnished mackintoshes to the United States Army during the World War; Mr. and Mrs. H. P. Glabrone, the latter the daughter of Sir William Noble; Mr. E. Robert Litchfield and Major Howard, of London.

RESIDENTS OF  
BAY CITIES WILL  
LOSE FINE WOODS

University of California Buildings Lucky to Escape

Despite the destruction which yesterday visited the city of Berkeley, resulting in damage amounting probably to \$10,000,000, residents of California will find consolation in the fact that their great state institution of higher learning, the University of California, escaped the flames.

Press reports from San Francisco indicate that the fire which swept through and destroyed thirty-five of the best residential blocks, was at several times within a hundred yards of the University campus. Had the fire-fighters failed to hold this margin intact it is doubtful whether the University could have been saved. The grounds of the University are heavily wooded and a large number of frame structures line the borders, where the fighters would have little chance to stay a fire such as that which took place yesterday.

One of the most serious results of the fire is that several thousand students will find themselves without living accommodation. The student body of the University of California now numbers between eight and nine thousand, some six thousand of whom reside in Berkeley's residential districts adjacent to the campus.

The fact, too, that twelve fraternity and sorority houses, each caring for between thirty and forty students, have been destroyed will further aggravate the situation.

In addition to the loss of a large part of its best residential section, much of Berkeley's scenic beauty has been destroyed. Among the most coveted from San Francisco's recreation spots are the Berkeley Hills sloping back from the Bay to the east of Berkeley, Oakland and Alameda. Here the laprads of city buildings have not penetrated and California scenery at its best abounds. Many of the hills are beautifully wooded, and although full details of the fire are not at hand it is difficult to see how many of these beauty spots can have escaped the flames.

## SOUNDINGS

The Canadian Government Marine steamer Newington is reported as scheduled to leave for Pachuca Point on Thursday morning with supplies and men to commence construction work of the new direction finding station there. The work will occupy several weeks and will be the first development in the new coastguard programme of the Government.

Just one day behind the other two Canadian Pacific Empress liners are due here next week. The Empress of Asia, which sailed from Hongkong on September 6, is scheduled to arrive here on Monday, while the Empress of Australia, which took such a gallant part in the rescue work of the Yokohama disaster, left September 11, and is expected to arrive here either Tuesday or Wednesday of next week.

Americans Begin  
to Carry Grain  
From Great Lakes

Winnipeg, Sept. 18.—The second United States vessel to comply with the tariff filing regulations of the new Lake Freight Act, is now loading grain at Port William, according to information obtained here today. The steamship Jenkins, owned by the Jenkins Steamship Company, of Cleveland, chartered for the grain service, and it is expected, two more boats owned by the Jenkins company will report to the head of the lakes shortly.

## OCEAN AND COASTWISE SHIPPING

VICTORIA GOES  
ON FINAL TRIP  
ON OCTOBER 6

Jacques Cartier, of French Line, Coming to This Coast For the First Time

Seattle, Sept. 18.—The Victoria, which arrived here yesterday from the Bering Sea, brought 250 passengers and a heavy cargo consisting largely of fish and fish products. The Victoria, which shifted to Tacoma, is to leave here October 6 on the last voyage of the year to Nome.

Though only 256 miles from Yokohama at the time of the catastrophe of September 1, the Wheatland Montana, which arrived here yesterday from Dairen, did not go to that port. The Wheatland Montana picked up calls for help from the Selma City, which had gone ashore in a tidal wave. The Selma City was aided by craft in Yokohama Harbor. The Wheatland Montana brought 400 tons from Taku Bar and is to load immediately for a return voyage.

In the service of the Compagnie Generale Transatlantique, the Jacques Cartier will come to the Pacific Coast next month on her first trip, according to advices received here yesterday. The vessel is the largest operated by the company.

Funeral services will be held here to-day for Captain William H. Read, sixty-five years old, who died in Santa Ana, Cal., September 8. He was a master mariner out of this port for years before going to California to command a private yacht.

Crops Not Hurt  
by Early Frosts

Winnipeg, Sept. 18.—The past week has been quite favorable for harvesting states the crop report of the Canadian Pacific Railway issued here last night. Fairly sharp night frosts affected some unripened crops, but not a serious extent. Threshing returns up to the present time would indicate that estimates of the crop are to be realized with remarkable good showing from Saskatchewan and Alberta and a fairly good average quoted from Northern Manitoba.

Cutting is completed in Manitoba, the yields are quite diverse, varying in quality and quantity. Wheat is running from five to twenty-five bushels average.

Harvest is making satisfactory progress in Saskatchewan, where several hundred men could be placed now at five and six dollars a day.

Some exceptional returns are reported from Alberta, where returns of from 35 to 63 bushels an acre are recorded, grading No. 1 Northern and weighing from 62 to 66 pounds.

Cutting is completed at most points on the E. D. & B. C. Railway. Grain is being hauled to elevators and is grading No. 1 and No. 2, the former grade predominating.

Wealthy apples are practically all harvested in British Columbia and picking is now starting on McIntosh, which are a good crop. Tomatoes are moving in large quantities to the canneries, grain crops are good and threshing rapidly nearing completion.

## THE TROUBLE

A more kind-hearted soul than Aunt Maria never existed. On one occasion a neighbor woman and her son for a chat was horrified to see a mouse run across Aunt Maria's kitchen.

"Why on earth don't you get a trap?" she asked.

"Well," replied Aunt Maria, "I did have a trap set, but it was such a fuss. Them mice kept gettin' into it!"

30	1:00	4.8	7.41	6.2	12:29	5.9	18.59	7.6	

Equilibrium.—To find the depth of water on the sill of the dock at any tide, add 18.9 feet to the height of high water as above given.

The height is in feet and tenths of a foot, above the average level of lower low water.

The time used is Pacific standard for the 19th Meridian west. It is counted from 9 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blank occur in the table, the tide rises or falls continuously during two successive tidal periods without turning.

Daniel Kern is  
Reported Safe

According to a wireless message picked up here the tug Daniel Kern, of Seattle, which was feared to be lost off the Northern California coast, is safe. She is reported to be in Crescent City where she will most likely make repairs. The leak is apparently under control. Captain E. M. Morgan is in command of the tug which was on its way to Seattle from San Francisco.

N.Y.K. SHIPS  
RESCUE 3,000  
REFUGEES

Twenty-One Ships of Company Dispatched to Stricken Seaport

A cable to the local offices of the Nippon Yusen Kaisha steamship line states that the N.Y.K. ships in Japan in the course of their rescue and relief work saved the lives of 3,000 refugees from Yokohama during the earthquake disaster, and since then an additional 7,000 have been carried from the stricken seaport to Kobe.

The advices describe the relief work of the Nippon Yusen Kaisha ships as marvelous. The company dispatched twenty-one of its steamships to the devastated port, the vessels taking full cargoes of relief supplies there and returning to Kobe with refugees.

The first full cargo of relief supplies the advices states, was carried to Yokohama by the liner Yamashiro Maru. The vessel found the inhabitants of Yokohama in a condition of starvation. Other Nippon Yusen Kaisha liners which followed the Yamashiro Maru.

A regular service has been established between Yokohama and Kobe with two sailings every three days, the express liners Nagasaki Maru and Shanghai Maru being detailed to the route. Other vessels of the line are carrying large numbers of Chinese from Yokohama to Kobe and Shanghai without charge.

A Japanese relief force and the Yokohama and Tokyo staffs are reported safe.

UNION HEAD HERE  
FROM INDIANAPOLIS

Typographical Chapels Welcomed W. R. Trotter on Brief Visit Yesterday

W. R. Trotter, first vice-president of the International Typographical Union, visited Victoria over the weekend and spent yesterday with the members of The Times chapel. Mr. Trotter has been attending the Trades and Labor Congress of Canada at Vancouver during the past week, and was accompanied on his trip to Victoria by George Howard, president of the Winnipeg Typographical Union.

Before attaining his present eminence in the Typographical Union and his executive position at the Indianapolis headquarters, Mr. Trotter was a resident of Vancouver, and for many years a member of the staff of The Daily Province, where he earned much respect among his fellow competitors.

At the last election of international officers Mr. Trotter was elected to the office of second vice-president for the usual two-year term, and assumed his present duties upon the recent death of International President McParland. This unexpected advancement brings within the range of immediate probabilities the installation of a Canadian as the head of one of the most important of the great international labor organizations, his present office of first vice-president placing Mr. Trotter in logical succession to the presidency at the next biennial election.

Following yesterday's report of deer seen in the precincts of the city, a resident of the Gorge Road, R. Oakshott this morning informed The Times that while on his way along that road he noticed two strange animals in a field. Their peculiar appearance and short yapping barks attracted his attention, and closer scrutiny revealed that they had long yellowish bodies, short thick legs, rounding ears and rather long tails. Mr. Oakshott received the impression that the animals were mountain lion cubs, this belief being heightened when one of the animals ran up a tree, jumped over a tall fence and disappeared, the other following.

"Let me kiss those tears away," he said tenderly. "She fell into my arms, and he was very busy for a few minutes. But the tears flowed on."

"Can nothing stop them?" he asked, breathlessly.

"No," she murmured. "It's a fever, but go on with the treatment."

All that is left of four of the seven U. S. destroyers that went on the rocks near Point Arguello, Cal., September 8 at a cost of twenty-two lives and \$15,000,000 in the United States navy's biggest disaster on the Pacific Coast. In the immediate foreground are the mast and charthouse of the Delphy, which led the squadron to disaster in the fog. Three men were lost and many injured on this destroyer. Steady pounding split it in half. The remainder of the boat lies out of the picture to the right. Behind it is the gleaming red bottom of the Young, second to crash, which became a death prison for nineteen men when it turned upside down. The rest of the crew dived or were thrown into the water. The Chancey and the Fuller are ground further out.

"Can nothing stop them?" he asked, breathlessly.

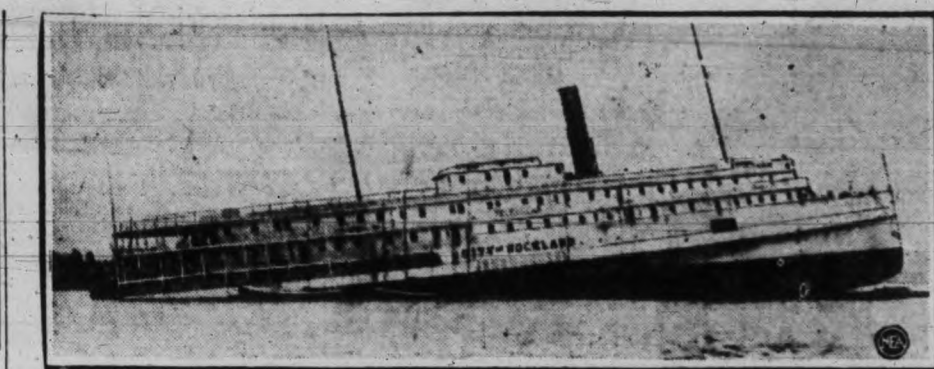

"No," she murmured. "It's a fever, but go on with the treatment."

SEA IS POUNDING THIS BOAT TO PIECES.—The City of Rockland on a reef off Dix Island, Maine, is being slowly pounded to pieces by the sea. It went aground during a recent fog. All of the 300 passengers were safely taken ashore.

JAPANESE EDITOR  
BUYS NEW PLANT  
FOR TOKIO 'ASAHI'

New York, Sept. 18.—The spirit with which Japan will recover from its terrible catastrophe will be exemplified by the activities in New York of Editor Uyemura, owner of the Tokyo newspaper Asahi, the entire plant of which was destroyed in the earthquake. Mr. Uyemura has a passenger on the Cunard liner Mauretania.

While here he will purchase new linotypes, stereotyping machinery, web press and everything necessary to the making and printing of a great newspaper. All this machinery will be sent by fast freight to Japan. The editor will visit the newspaper plants of The Tribune, Herald, Times and other metropolitan dailies with a view to purchasing in ex nuptis which will revolutionize newspaper printing in Japan.

Prominent passengers arriving on the Mauretania include William K. Vanderbilt, Mr. Edgar S. Aschmussen, Jr., the Misses Katrina, Elsie and Mary Aschmussen, John W. Althouse, of the Althouse Tours, Philadelphia, Jack Anderson, the well-known diamond merchant; John F. Atkinson, of the Foreign Missions, and Mrs. Atkinson; Maurice and Robert Brill, of Brill Brothers; Mrs. Maurice Brill, Mrs. William Hamlin Childs, Mr. and Mrs. F. K. Curtis, the Misses Helen and Cornelia Curtis; Mr. and Mrs. W. Adams Delano, Edward Robinson, of the Metropolitan Museum of Art, and Mrs. Robinson; Thomas S. Gates, of J. P. Morgan & Co.; Mrs. Gates, Miss Virginia Gates, Jay Jasper and Thomas S. Gates, Jr.; W. H. Harkness, Jr.; R. M. Hurd, Clement Hurd, Miss Eleanor Hurd, Mr. and Mrs. Charles P. Livingston, Miss Betty Livingston, Mr. and Mrs. W. W. Montgomery, Mr. and Mrs. Le Roy Morgan, Robert O'Gorman, Miss Rose O'Neill, Winthrop Ames, John Barrymore, Otis Craton, of the Cranston Office Company, Kansas City, and Mrs. Cranston; Dr. and Mrs. Edwin F. Beaver.

Canadian Importer—August 2, 2.25 p.m. left Esquimalt for Sydney and Melbourne; August 21, passed Honolulu; arrive Vancouver Nov. 20.

Canadian Prospector—September 9, arrived Newcastle; arrive Vancouver October 15.

Canadian Inventor—August 27, 4 p.m. arrived Vancouver.

Canadian Winner—September 11, 10.30 p.m. arrived Vancouver; sails Vancouver October 20.

Canadian Highlander—August 27, left Shanghai for Vancouver; arrive Vancouver September 22.

Canadian Traveler—August 22, 3 p.m. left Auckland for Vancouver; arrive Vancouver September 21.

Canadian Skirmisher—September 2, 3.30 p.m. arrived Vancouver.

Canadian Freighter—August 25, 3.50 p.m. left Prince Rupert for Yokohama, Kobe, Shanghai; arrive Vancouver November 15.

Canadian Scottish—August 18, 6.45 p.m. left Vancouver for Sydney and Melbourne; arrive Vancouver December 1.

Canadian Britisher—August 26, 11 a.m. left Victoria for India; arrive Vancouver January 29, 1924. (To arrive Bombay October 14.)

Canadian Observer—September 14, 11.30 a.m. arrived San Francisco; arrive Vancouver September 20.

Canadian Rover—September 13, 8 a.m. arrived Ocean Falls; arrive Vancouver October 4.

Canadian Farmer—September 14, 4 a.m. arrived Vancouver.

Canadian Volunteer—September 14, 7 p.m. arrived Powell River; arrive Vancouver September 27.

CUBA GIVEN UP  
AS TOTAL LOSS

Los Angeles, Sept. 18.—The Pacific liner Cuba, which went ashore on a reef off San Miguel Island, has been abandoned. The loss is estimated at \$400,000. It is said the ship's destruction was caused so much to the pounding of the waves against its sides as to the swelling of a cargo of coffee which became water soaked and exerted such force against the holds that the hull and decks were forced out of line.

Jews Celebrate  
Rosh Hashonah  
on Cameronia

New York, Sept. 18.—More than five hundred Jewish immigrants transferred from the departing Aquitania and the Saxonia to the Anchor liner Cameronia because of the congested conditions on Ellis Island, were afforded every facility by the Cunard Line for the celebration of Rosh Hashonah on the latter ship. The large second-class dining-room was turned over to them for their exclusive use for two days. Captain Walter and Purser Johnston took a personal interest in the welfare of the Jewish immigrants and saw that the two rabbis aboard were rendered every help to make the New Year observations most successful in every particular.

Deputations from each ship called on the respective captains to express the gratitude of all the Jewish passengers aboard for the kind and courteous treatment rendered by the entire crews of both ships.

San Francisco Harbor Whipped Into Rough Sea

San Francisco, Sept. 18.—A strong northeaster whipped San Francisco Bay into a turbulent sea yesterday, causing inconvenience to all kinds of craft. Launch operators experienced much trouble. The schooner Glendale, arriving from Unga, was unable to tack across the narrow heads and had to be assisted in by tugs. The schooner Beulah also made port after having manoeuvred off the heads all morning.

Three fishing vessels heavily laden with salmon and codfish arrived yesterday. They are the barque McLaurin from Bristol Bay, the schooner Glendale from Bering Sea, and the schooner Beulah from Unimak Pass.

The Shipping Board freighters West Holbrook and West Montague were brought here to be conditioned with others to handle cargoes to the Orient.

The freighter Woonsocket, formerly operated by the defunct Green Star Line, has been purchased by the Matson Navigation Company and will be used in the company's freighting service between this coast and the Hawaiian Islands.

With a full passenger list and cargo, the T.K.K. liner Tenyo Maru sailed for the Orient at seven o'clock to-day.

SHIPS RETURN TO  
NOME AS SUMMER  
DRAWS TO CLOSE

Geological Survey Party Return on Motorship Arctic; Other Vessels Due

Nome, Alaska, Sept. 18.—The motorship Arctic, owned by Liebes & Company, of San Francisco, arrived here Sunday after a Summer's cruise in the Arctic Ocean. Eleven members of the United States Geological Survey party which has been operating in the neighborhood of Point Barrow returned to Nome on the vessel.

Officers of the Arctic reported the death last year of Martin Anderson, the motorship Arctic, owned by Liebes & Company, of San Francisco, arrived here Sunday after a Summer's cruise in the Arctic Ocean. Eleven members of the United States Geological Survey party which has been operating in the neighborhood of Point Barrow returned to Nome on the vessel.

With the gradual closing of the Summer season vessels from the Far North are beginning to arrive at Nome in numbers. The schooner Teddy Bear, was expected to reach here to-day, and the Hudson's Bay Company's steamer Lady Kindersley, which has been delayed by engine trouble, will be here within a few days. The United States bureau of education schooner Boxer, with a large number of reindeer and a cargo of coal taken on at Wainwright, is also expected shortly.

## EVENTS TO COME

Rehearsals will resume at 8 o'clock this evening for the St. Andrew's Presbyterian Sunday school orchestra. New members will be welcomed.

"Helps to Practical Life" will be the subject of a study to be given at the hearing meeting on Wednesday evening at the New Thought Temple, 935 Pandora Avenue. The talk will be practical, it is announced.

The Ladies' Aid of Hampshire Road Methodist Church are holding a corn supper Wednesday, September 19 at 8 o'clock. A good programme will be given during the evening. Rev. E. R. Maclean, Provincial Secretary of the Religious Educational Council, will give a brief but interesting address.

## SUCCESSFUL PUPILS

Pupils of Reginald Cox, L. Mus., McGill, who were successful in the recent examinations held in this city by McGill University, Dr. Harry Evans Perrin, Dean of the Faculty of Music, being presiding examiner, were as follows: Intermediate Grade—Distinction, Barbara McDonagh, Pass, Betty Campbell Newton, Frank Morris, Elementary Grade—Pass, Mary Parkinson, Harry Robson, Lowest Grade—Distinction, Eileen McDonagh, Pass, Winnie Inglis, Freddie Gray, Theoretical—Junior

OLIVER DENIES  
NEW BEER STORYNo Decision on Beer Changes  
Reached; Says His State-  
ments Misinterpreted

Premier Oliver denied to-day statements attributed to him in morning papers to the effect that the Provincial Government was planning changes in laws governing the sale of beer in British Columbia.

"I have been absolutely misinterpreted," the Premier declared. There is absolutely nothing to be said about the beer situation at the present time. That question is in the process of development.

"Talk about a plebiscite on beer is absolutely premature now. Nothing along this line could be done in any case until legislation allowing for the holding of a plebiscite was passed. At the present time talk about changes in beer regulations is just speculation. The interview attributed to me to-day puts me in a false position and utterly misinterprets what I said."

## SOCIAL AND PERSONAL

At St. Barnabas Church, Calgary, on September 8, the Rev. H. M. Henderson united in marriage Harold Richard Dove, son of Mr. and Mrs. Douglas Dove, of Duncan, B.C., to Edith Dorothy, youngest daughter of Mrs. Murdoch, of Cambourne, Cornwall, England.

Mrs. Walter Coulter entertained at a buffet supper in Vancouver on Sunday evening in compliment to Signor Morando, who is leaving this week for the East. The guests included General and Mrs. A. D. McRae, Mr. and Mrs. Herbert Wood, Dr. and Mrs. Francis Ewing, Mr. and Mrs. Norman Lang, Mr. and Mrs. Victor Edmunds, Mr. and Mrs. Percy Shallock, Mrs. B. T. Rogers, Mrs. A. L. Russell, Miss Sheila Russell, Mrs. Robert Baird, of Victoria, and Miss Lillian Wilson.

Mrs. Walter Armstrong, of Victoria, was guest of honor at a tea given recently by Mrs. Charles Higham, in Vancouver. Assisting the hostess in serving were Mrs. Bradshaw, Mrs. Friend and Miss Pearl Higham, and Miss Edith Friend cut the ices. During the afternoon Mrs. Jacobs and Mrs. W. S. Gossie gave delightful solos, accompanied by Mrs. Gossie. Those present were Mrs. Bromley, Mrs. Jacobs, Mrs. Shortmann, Miss G. Bromley, Miss E. Friend, Mrs. G. Woolam, Mrs. Bradshaw, Mrs. Latimer, Miss P. Higham, Mrs. W. S. Gossie, Mrs. Friend and Mrs. Walter Armstrong.

The teacher had been giving a lesson on the cat's eyes. She had laid stress on the fact that the cat can see in the dark.

"Now begin to question the children."

"What can the cat do that I cannot?" she asked.

One bright pupil shot up his hand and gave the following answer:

"Please, miss, was his tail."

## NEWS IN BRIEF

Frank P. Slavin and interests endeavoring to organize a woolen industry here, have called a meeting to take place at the Chamber of Commerce rooms on Thursday evening at 8 o'clock. Mrs. Dennis Harris will take the chair.

At the close of the divorce hearing of Hill versus Hill, before Mr. Justice Gregory in Supreme Court this morning judgment was reserved. P. J. Sinnott acted as counsel for the petitioner, Mrs. Kate Hill, who cites William Hill as respondent in an uncontested suit.

President H. M. S. Bell occupied the chair at the monthly meeting of the Vancouver Island Life Underwriters' Association, yesterday at which T. E. Marriner reported on the Dominion convention last month of the Life Underwriters' Association of Canada, at Montreal. Plans were laid for the programme this winter.

At a meeting of the Chamber of Commerce transportation committee this morning, W. H. Gardner, of the local Canadian Pacific Railway headquarters, reported on the proposed changes in the schedule of the Seafarer. These changes will become effective on October 1 and will be published at that time. At present the schedule has not been definitely determined.

A rather unusual exhibition of pictures is on view in the window of the Victoria Book & Stationery Co., on Government Street. It consists of a number of oil and watercolor sketches by W. Menelaws, the well-known local artist, the subjects being chiefly portraits and figure. To these the Rev. R. Connor has added a number of watercolor sketches taken from his sketch books of views in this vicinity as well as in Alberta and California.

Twice postponed now, the regular meeting of the city council will take place at 2 o'clock to-morrow afternoon. The Monday session was postponed as the mayor and seven aldermen attended the banquet in honor of the Canadian Club visitors. To-night the mayor and councillors wish to hear Sir George Foster's address on the League of Nations.

Twenty-five men operating five fire engines made a mad dash through city streets at 4 o'clock this morning because mischievous youths sprang a fire alarm signal at Box 51, Government Street. Ten minutes of the city's time and a serious loss of fire fighting equipment in a useless run resulted. Firemen have a hard time of filling oil and pitch waiting for the first alarmist they can catch red handed.

The fact that the H.M.C.S. Patricia is now out of port at gunnery practice up the coast has been a goodly part of their wealth here as they passed through with their "clean-ups" from the mines and forests.

With such conditions here, Mr. Perry soon became known as a plunger. He was a close and steady courier of the good of change, and one of the first big sums of money that came his way, however, was from another source. A member of a prominent family of those early days found himself in an embarrassing position. He was to pay for a cheque reported to have been of varying sums from \$25,000 to \$50,000 Mr. Perry shouldered the responsibility.

The remaining \$10,000 issue of the \$50,000 municipal cemetery board bond issue is now in the hands of the printers and will be ready for sale shortly. The city, stated Mayor Hayward to The Times to-day, has decided to sell the bonds without calling for tenders. The decision was influenced by an unusually high competitive bidding. Superintendent J. T. Wilkinson commenced his duties at the new cemetery yesterday. The first interments are planned within two months' time.

## CHINESE APPEAL

Before Mr. Justice Gregory in Supreme Court Chambers to-day, H. W. R. Moore applied on behalf of Chow Kee and thirty other Chinese for an order in the nature of a writ of mandamus to compel hearing of the applicants' appeal in the County Court. Preliminary objections were entered by C. L. Harrison for the Crown. Stating that he was impressed with the objections to the application, Mr. Justice Gregory deferred the matter with leave to the applicants to apply before another judge next week. Chow Kee and others were fined \$25 in the city police court on charges of being found in a gaming house. The house was a club, set up for defence, and sought an appeal. The appeal was dislodged on technical grounds relative to want of service.

Mrs. Johnson: "I wish I could think of something to keep my husband at home in the evenings."

Mrs. Smithson: "Give him a motor car."

Mrs. Johnson: "He'd be out more than ever then."

Mrs. Smithson: "No, indeed. My husband bought one last week and the doctor says he won't be out for six weeks."

HEAD-FIX  
FOR  
Sick and Nervous Headaches

Finally, the town learned that Mr. Perry was no longer the occupant of a suite at the Empress Hotel, and that he had retired to the city. He gradually dropped out of all the more prominent circles in the city. When there were horse races along the coast, Mr. Perry was seen with a "book" ready to take bets and pay the track odds. At night he was never far away from the alleged gambling clubs in the city and in the early hours of the morning he could usually be found at one of the Chinese "joints."

B. J. Perry Had  
Career of Climax  
and Contrasts

The method of Bernard J. Perry's passing was unusual, like his life. He entered the New England restaurant early Sunday morning and called for something to slacken his thirst. At the table he leaned over. The waiter thought he was merely half asleep, as he had seen him countless times late at night or early in the morning. Finally, he tried to rouse him. His failure to do this resulted in a hurry call being sent in for a doctor and a priest.

Both were too late to be of service in their calling as Mr. Perry was dead. Some newspaper men taking an early morning supper after a day of excitement and work resulting from the arrival here of the first refugees from the Japanese earthquake were the only witnesses of the passing of a man whose name was known in every section of Victoria life.

His career was one of high lights and of strange contrasts, as vivid as a city of this size. If his lot had been cast in one of the great cities of the world he would have been one of the mysterious characters known to all newspaper editors.

B. J. Perry in his time had been the intimate of the highest down to the lowest, of the most cultured down to the most vulgar, of the most known and the most unknown. He had been a member of the "Bleak House," begging the round of his acquaintances.

When the police searched his pockets they found \$114, which appears to be all the actual money he had. If he had died a few hours earlier he would have been a millionaire. He had just won that much in a Chinese lottery before he came into the restaurant.

He was highly educated, a scholar in the classics and a stout churchman.

## A Remarkable Character

Mr. Perry came to Victoria about thirty years ago. Before that he had been in California, where he had come from England. He was born in Staffordshire fifty-nine years ago, and received his education at an English public school boy can get. He was trained for the bar and admitted to practice but never took it up either in England or here.

When he came to Victoria this was not the well-behaved community it is to-day. It was a town of lawlessness and of the worst kind of gambling. Mr. Perry believed in a considerable amount of lawlessness in the town of a town on the grounds that it was good for general business if all the facilities were afforded for men to leave a goodly part of their wealth here as they passed through with their "clean-ups" from the mines and forests.

With such conditions here, Mr. Perry soon became known as a plunger. He was a close and steady courier of the good of change, and one of the first big sums of money that came his way, however, was from another source. A member of a prominent family of those early days found himself in an embarrassing position. He was to pay for a cheque reported to have been of varying sums from \$25,000 to \$50,000 Mr. Perry shouldered the responsibility.

The remaining \$10,000 issue of the \$50,000 municipal cemetery board bond issue is now in the hands of the printers and will be ready for sale shortly. The city, stated Mayor Hayward to The Times to-day, has decided to sell the bonds without calling for tenders. The decision was influenced by an unusually high competitive bidding. Superintendent J. T. Wilkinson commenced his duties at the new cemetery yesterday. The first interments are planned within two months' time.

With his bank account, Mr. Perry launched out into a series of enterprises, a motion picture theatre on Broad Street, a high-class shoe store, a string of race horses and numerous mining deals.

These adventures, however, were not enough for him, spurred on by his sudden wealth. He decided to become a political factor. His first experience as candidate for alderman in Ward One in 1911 was not very encouraging as he was second from the bottom of the list of five candidates. The result of the election was that Mr. Perry won easily did not please the defeat of Mr. Perry. He found some fault with names on the voters' list took the matter to the courts, was sustained and had a new election ordered. This took place in April. Mr. Morley was returned as mayor with a still greater majority. Mr. Perry, however, did not run.

Mr. Perry's next political venture was in 1912 general Provincial election, when he came out as an independent in this city on a platform of his own. Sir Richard McBride headed the poll with 2,224 votes and Mr. Perry with 1,116 votes was last of the eight candidates. The meeting conducted by Mr. Perry were such gatherings as no one before or since has attempted.

After that signs of Mr. Perry's affluence began to drop off. His spending began to drop off, there were rumors of family affairs which cost him big sums of money, his theatre and other investments began to go wrong. Then Victoria noticed that the Perry sport-model car had passed into the possession of another man.

His movements were somewhat of a mystery. Whatever his gaming occupation, it did not prove permanently profitable. The word soon began to go around town that "B. J." was "hard up." Former friends at various times came to his rescue with small loans. He got a newspaper job at the race track for a few days, which helped out.

CLUB EXTENSION IS  
SUBJECT OF DEBATE

Many valuable suggestions for the extension of the scope of endeavor of Canadian Clubs were contained in the address given by A. R. Lancelotti, of Hamilton, secretary of the Association of Canadian Clubs last year, in his address to the convention this afternoon on "Canadian Club Extension."

That in the direction of fostering patriotism the Canadian Clubs should educate the public to herald Canadian literary, musical and aesthetic progress and progress was heralded was one of the outstanding points made by the speaker. As an example to the young people of Canada he suggested that they should be of value to their forefathers. The greatness of Canada should also be impressed upon Canadians by spreading the knowledge of its great resources.

The speaker also supported the proposal advanced several times during the convention of a bureau of speakers. The large clubs, he said, should help the weaker clubs in every way possible by suggesting speakers and co-operating in any other way that would prove beneficial.

Mrs. G. S. Dunn, of Hamilton, also spoke on the subject. It was the altruistic nature of Canadian Clubs, she said, that had made their influence so potent in Canadian life. The executive body of the Vancouver club, she said, had been referred to in appreciative terms to the co-operation with Winnipeg, which the Vancouver club had enjoyed during the year.

The beautiful weather, to-day, proved a temptation to a number of the visitors to go for sight-seeing tours, and the cars were crowded with friends of the delegates, who are delighted to come here in such excellent weather.

The Maple Leaf Magazine, the organ of the Associated Canadian Clubs, is represented at the convention by S. K. Smith, its editor. The magazine is edited at Hamilton, and with the account of the convention here will be a series of photographs of the city and district.

A number of delegates arrived from Seattle, Regina, Saskatoon and other centres on the afternoon steamer yesterday, and should be added to the list. Official delegates include Alan Spratt, of Saskatchewan, and Mrs. Claude Nash, of Winnipeg. Accredited representatives numbered Mrs. George T. Duncan, Seattle, Mrs. R. Holmes, Mrs. L. White, Mrs. L. Smith and Mrs. T. Katt, and Mrs. Woodward, Regina.

With the addition of new registrations this morning, the total has risen to fifty official delegates and 153 accredited delegates of clubs to the conference. In addition there are over 200 visitors here. With the registration of Mrs. A. Moore, of Calgary, the official delegate list of that club is complete. Accredited delegates whose names should be added to the list of delegates of clubs to the conference are: Mrs. E. G. King, Calgary; Mesdames J. G. Johnston, J. G. Lister, Robert McCausland, and A. V. Pankhurst. They all belong to Vancouver.

The modern section of Western Canada is represented by several delegates, among them being delegates from Le Pas and North Battleford. The delegate from the Northwestern Canadian Club of Saskatchewan, with headquarters at the Battleford, is Cameron B. McIntosh, owner of The North Battleford News. Mr. McIntosh says the primary need of his section is closer co-operation for supplying speakers. He is president of the Canadian Club in his district, and he believes the small city club calls for closer assistance from headquarters than the large urban centre. He reports a successful harvest throughout the whole of Northwestern Saskatchewan.

## A BAD EXAMPLE

The censor had just finished reading the new play.

"This will never do, young man," he said to the author. "It is positively corrupting."

The author argued: "Why, this play is all about a minister and a reformer—it's my best work—there can't be anything objectionable in it."

"Listen to the ending," replied the censor. "The situation is this—the man here have just finished dinner at the hotel. The minister says, 'Shall we drive to the station now?' I am ready," answers the reformer. The two men rise from the table and go out."

"Well," muttered the author, "what is corrupting about that?"

"My dear sir, your play would exert a criminal influence on our younger generation. The minister and reformer have left without paying their bill!"

Leach played a mean trick the other day," complained Robinson.

"What did he do?"

"He was visiting at our house, and boasted before the whole family that he had never been ill in his life."

"That's not anything new about that,"

"Perhaps not," admitted Robinson.

"But one night, not more than a month ago, I told my wife I had to go and sit with him through a malaria attack!"

SWISS PLANNING  
ALPINE RESORTS IN  
NORTHERN B.C.Thousands of Swiss Farmers  
Eager to Come to Province,  
Government Told

Thousands of Swiss farmers are eager to come to Canada if opportunities for settlement here are available for them. This fact has been made clear by representatives of the Swiss farmers at conferences which they have been holding with Premier Oliver and Hon. J. D. MacLean, Minister of Railways, at the Parliament Buildings here during the last few days. Plans for bringing Swiss settlers to British Columbia will be discussed at final conferences with the Premier and Dr. MacLean to-day and to-morrow.

Swiss interests are anxious also to open a string of Alpine resorts in northern British Columbia along the line of the Grand Trunk Pacific Railway, the Government has been told by Dr. Hans Bernhard, of Zurich, director of the Swiss Association of Interior Colonization and Industrial Agriculture, and Fritz Beck, his associate.

The Grand Trunk Pacific company, they believe, offers excellent opportunities for the Swiss chalet business. Points in the Coast Range and along the Skeena, they declare, can be made leading tourist resorts.

Three thousand Swiss farmers already are in Canada or on their way here, the Government has been told. Eight thousand more Swiss farmers are eager to follow them. The Swiss authorities who are supervising this immigration movement wish to secure the farmers jobs on Canadian farms so that they may work for a year and learn to understand this country before starting farms of their own.

The Provincial Government will do everything in its power to aid the settlers to come to this Province, the Premier has assured the Swiss representatives. The Government naturally is anxious to have them settle in the Pacific Great Eastern Railway country, if possible. The Swiss representatives will start on a trip over the P. G. E. shortly to investigate conditions along the line.

MERCHANTS WANT  
REPRESENTATIVES  
ON CITY COUNCILMay Choose Two Candidates  
For Next Municipal Election  
From Among Retailers

The Retail Merchants' Association of this city decided to-day to hold an executive meeting next Tuesday in order to discuss the plan for choosing representative candidates for the city council. The executive body will pass judgment on the question, and if the action is found to be advisable, a general meeting of all members of the association will be called to give the matter serious and final consideration. The retail merchants of this city feel that they should be represented on the council, and will probably choose two candidates for the coming election of municipal officers. The executive body further decided to submit to the Provincial Board of the Association a resolution regarding the Pure Foods Act. This action was taken in view of the fact that several members of the association had been prosecuted, and in the opinion of the members of the body, most unjustly so. The resolution is as follows:

No action shall be taken against the vendor of goods, resembling or named as some similarly appearing product, but the manufacturer or importer shall be prosecuted directly, and the vendor shall be used only as a witness, to give evidence and in proving that he was the original purchaser.

This matter will be put up to the Provincial Board of the Retail Merchants' Association, and will later be forwarded to the Dominion Board for its consideration, it is understood.

At a dinner party held in a hall adorned with many beautiful paintings, a speaker, wishing to pay a compliment to the ladies present, pointed at the paintings on the wall and said:

"What need is there for all these painted beauties when we have so many of them at the table?"

LIFE BURDENED  
BY DYSPESIAHealth and Happiness Came  
With "Fruit-a-tives"Made From Fruit Juices and  
Tonics

"Fruit-a-tives," the wonderful medicine made from the juices of apples, oranges, figs and prunes, is one of the greatest means of doing good that this country of ours has ever known.

"Fruit-a-tives" is bringing health to hundreds and hundreds of people who suffer with chronic Constipation, Biliousness and Indigestion. Mr. Frank Hall, of Weyburn, Ont., says, "I purchased a box of 'Fruit-a-tives' and began the treatment. My condition improved immediately. The dyspepsia ceased to be the burden of my life as it had been and I was freed of constipation."

50c a box, 6 for \$2.50 trial size 25c. At dealers or sent by Fruit-a-tives Limited, Ottawa, Ont. Adv.

Canada's Greatest Piano Value

## The "Craig" Piano

\$395

—on terms  
as low as  
\$10.00 per  
month

You will pay as much as this for a used piano, but why should you when you can buy a new "Craig" and benefit by the double guarantee of the makers and the house of Fletcher Bros., as well!

The "Craig" stands out pre-eminent as Canada's Greatest Piano Value. Its tone is a revelation of sweetness; its keyboard action is easy, responsive and pleasing; its case architecture is a model of simple dignity and charm.

## OBITUARY

The funeral of Mary Lodge, who passed away at the residence of her sister, Mrs. Henrietta McCaw, of 2214 Lydia Street, took place yesterday afternoon at 2 o'clock from the above residence. Rev. Joseph McCoy officiated, and the hymns sung were "Rock of Ages" and "Abide With Me." The service was largely attended by relatives and friends, and the floral tributes were many and beautiful. W. A. Jameson, S. Partington, F. W. Laing and M. McEwen acted as pallbearers, and interment was made at Ross Bay cemetery.

Funeral service was held yesterday afternoon over the remains of Mrs. Agnes Willerton, who passed away at her home, 2440 Robertson Street, last Friday. The service was conducted by the Rev. W. L. Clay, D.D., at 2:45 o'clock, at the Sande funeral chapel. Relatives and a large gathering of friends were in attendance, and the floral tributes were many and beautiful. The hymns sung were "Abide With Me" and "Peace, Perfect Peace." The pallbearers were J. Fraser, H. S. Day, J. McHardy, William Graham, H. Toimie and D. McGillis. The remains were laid to rest in Ross Bay cemetery.

## COULD YOU BLAME IT?

The puffing, panting and perspiring old gentleman climbed slowly into the omnibus and sank down on the seat, mopping his forehead with a large handkerchief.

"Hot, hot—tremendously hot!" he remarked to a cool-looking young man seated next to him.

"Well, it is warm," said the other.

"Warm? Do you call it warm?"

## - BASEBALL. CRICKET. TIMES SPORTING NEWS. GOLFING. SWIMMING -

Jones and Evans  
Both Flash Fine  
Golf in TourneyProminent Amateurs Tie in  
Medal Round of U.S. Golf  
Championship With 149Von Elm Tied For Fifth Place;  
Willie Hunter Sixth; Can-  
adians Fail

Chicago, Sept. 17 (Associated Press)—Bobby Jones, of Atlanta, national open champion, and Chick Evans, of Chicago, the only man who ever won the national open and amateur titles in one year, yesterday tied for low medal score at 149, one above par, for the thirty-six holes of qualifying play in the national amateur championship at Flossmore, both stars shooting seventy-five on Saturday and equalling par, seventy-four, yesterday.

It was a thrilling finish for the large gallery, as Evans started late and knew what he had to do to beat Jones' score. He scored a birdie four on the first hole and finished the first nine in thirty-five, one under par. Jones' score for that half. He slipped two shots on the short eighth and thirteenth, as well as one on the long tenth, but reached the seventeenth tee with two birdies. It fell to Francis Ouimet, formerly national and amateur champion, to set the course record for the event by chalking up a seventy-three.

**Only Two Under 150**  
Not one of the 120 players in two circuits of the 5,704-yard course was able to better that figure, although on most links such a easy of golfing stars invariably produces at least one score of seventy or better. The qualifiers, however, were not widely separated, for the Evans-Jones score let anyone into match play was 161, and six players tied at that figure for the last three places among the thirty-two selected to contest for Jesse Sweetser's title at match play. None of the contestants equaled par for the thirty-six holes, and Jones and Evans were the only two to get under 150.

Dave Herron, of Chicago, who won the title three years ago at Pittsburgh by defeating Jones in the finals, was third with 151. George von Elm, of Salt Lake City, formerly trans-Mississippi champion, recently reinstated to amateur standing, tied at 153 with Francis Ouimet for fifth place.

**Hunter Well Up**  
Willie Hunter, of Los Angeles, formerly British open titleholder, improved his game four strokes yesterday and scored thirty-five, three under par, for the first nine holes for a tie seventy-five to tie for sixth place with 154, with Albert Seckel, of Chicago, once intercollegiate champion.

Rudolph Knepper, 156, of Sioux City, intercollegiate champion last year for Princeton, was only one stroke behind with 155, while Fredrick Shute, of Chicago, twice national champion and famous as a Yale athlete, falling out from his leading score of seventy-four made on Saturday, yesterday took eighty-two for 156.

The only other Pacific Coast player to qualify besides Hunter was H. K. B. Davis, of Vancouver, who got 153, the same score returned by Jesse Guilford, of Boston, formerly champion.

**Well Distributed**  
The qualifiers were widely distributed geographically, Chicago having eleven, St. Louis two, Boston two, Texas two, Pennsylvania two, Ohio two and California two, while one each came from Utah, West Virginia, Michigan, New York, Iowa, Indiana, Georgia, Wisconsin and Illinois.

The pairings placed Jones and Evans in the lower half, so that both of them cannot reach the finals even if they survive previous rounds, but they are so drawn that they might come together in the semi-finals.

The pairings follow in order of draw.  
Upper half—Guilford and Jacoby, Weber and Cummings, Herron and Martin, Sweetser and Seckel, Shute and Held, Sweet and Ellis, Frailey and Fowles, and Gardner and Knepper.

Lower half—Marston and Simpson, Cochran and Jones, Joe Wells and C. P. Wells, Davis and George Blossom, Haines and Ouimet, Evans and Hunter, Marlon and Francis Blossom and von Elm and Carter.

**Canadians Lose Out**  
Thirty-two players qualified. Three Canadians failed to qualify: Redvers McKenna, Montreal, took eighty-two strokes yesterday for 164 for the two days' play; W. J. Thompson, Toronto, had eighty-one for a total of 164, and Frank Thompson, Toronto, had eighty-three for a total of 173.

**JACK IS LUCKY, MOST FELLOWS GO HOME WHEN THEY'RE CLEAN BROKE**

New York, Sept. 18.—Jack Dempsey leaves today for his home in Salt Lake City, with nothing to show for his battle of Friday night except a black eye and nearly half a million dollars.

**VISITING ENGLISH CRICKET TEAM WINS**

Toronto, Sept. 18.—Major Wynyard's Free Foresters finished their final match in Toronto yesterday when they defeated All-Toronto Cricketers by ten wickets in the game which started on Saturday.

The Foresters had a lead of forty-nine runs at the end of the first innings. Saturday, when they first won the match, they defeated All-Toronto Cricketers by ten wickets in the game which started on Saturday. The Foresters had a lead of forty-nine runs at the end of the first innings. Saturday, when they first won the match, they defeated All-Toronto Cricketers by ten wickets in the game which started on Saturday.

Three-Year-Olds  
to Race For Right  
to Meet Papyrus

New York, Sept. 18.—My Own, carrying Rear Admiral Cary T. Grayson's colors, and Zev, from the Ranocas Stables, are likely to meet on the Laurel track in Maryland on October 12 to decide which shall have the honor of meeting Papyrus, English Derby winner, in the international race at Belmont, October 20.

The race between Zev and My Own, if it is staged, will be the result of an offer of a \$50,000 purse made by the Maryland State Fair Association.

Lou Cassidy, representative of the Laurel track, said Admiral Grayson was ready to enter My Own, and all that is needed is the approval of Harry P. Sinclair and the committee of the Jockey Club which will pick Papyrus' opponent.

Chicago, Sept. 18.—Harry P. Sinclair, owner of Zev, winner of the Kentucky Derby, left here yesterday without accepting or rejecting a proposal for a \$50,000 match race between Zev and a half dozen of the richest three-year-old stakes winners in America, including Admiral Cary T. Grayson's My Own, to be run during the Maryland State Fair at the Laurel track.

Four Fine Rugby  
Teams Will Play  
In Senior LeagueJ.B.A.A., Wanderers, United  
Services and Navy to Com-  
pete For Barnard Cup

Victoria's senior rugby loop has been completed with four sterling clubs entered. They will commence play about the middle of October as a preliminary during the Winter months. The victors will be awarded the Barnard Cup, which has been at stake for many years and which has been won the last three seasons by the J.B.A.A.

The four clubs which will play this year are as follows: J.B.A.A., Oak Bay Wanderers, United Services and the Royal Canadian Navy. With four such splendid teams in the field the rugby fans are assured of some rattling good games this winter. The clubs are busy signing their players and the first practices will be called very shortly.

**Two New Clubs**  
The United Services and the Navy are the new clubs in the race. They are assembling very strong fifteen and will assure the other two clubs of a very hot run every time they come out. The Navy will assemble most of the material they have had in tow for the past few years, while the Oak Bay Wanderers will take over the franchise of the Wanderers Club of last year and will have practically all its players.

Peter Officer, Kinch, the well-known rugger who developed such a fine rugby machine at the Royal Naval College two years ago, is in charge of the navy team this year. He will coach the squad and will have plenty of time to get his material in first-class shape. Commander Nixon is giving every support to the team. The navy has a great advantage over the local teams through the fact that the blue jackets are always in good condition and can be allotted hours for special training.

**A Combination**  
The United Services will include players from the Garrison and 16th Canadian Scottish. This club will be exceptionally powerful. Many of the Garrison players have starred at Canadian rugby and will only require to be instructed in the inside plays in English rugby to become stars.

The entry of the Navy and United Services teams will prove a big boom to rugby this season. Many new faces will appear in the field and all the teams will be given a wider field from which to pick the rep team to carry the city's colors in the McKenna Cup series.

This should be the biggest season in the history of local rugby. The intermediates are busy organizing for the season and the juniors will have a fine league.

STILLWELL LOSES  
BANK TENNIS TITLE

The final of the Canadian Bank of Commerce championship was played in Vancouver during the week-end, G. H. Stillwell, of Victoria, losing to Mr. Mahood, of Vancouver, in three straight sets, with a score of 6-3, 7-5, 6-2.

## SIKI GETS A MATCH

Philadelphia, Sept. 18.—Battling Siki, boxer, was yesterday signed to meet George Godfrey, negro in Philadelphia, October 8, in an eight-round no decision bout.

## A QUICK KNOCKOUT

Mobile, Ala., Sept. 18.—Louis Hill, of New Orleans, weighing 160 pounds, knocked out Frankie King, 150, of Fort Worth, Texas, here last night in the second round of what was to have been a ten-round bout.

Yorkshire Scores  
Easy Victory Over  
the Rest at Cricket

London, Sept. 18 (Canadian Press cable).—Yorkshire defeated the Rest of England yesterday in the final cricket match of the season on the oval.

Yorkshire went to bat first and scored 430 for four wickets and then declared. Yorkshire began a second innings and made twenty-six runs for one wicket. The Rest of England made 273 runs, J. Ryan 109.

# URGES NEW WORLD ORGANIZATION IN PLACE OF LEAGUE

**Present League, Attempting to Reform World Overnight, Will Fail, Suzzallo Warns; U.S. Will Not Enter It But Would Take Part In New Association Formed to Attempt Less Ambitious Work**

Because it is trying to remake the world overnight and disregarding the facts of human nature, the League of Nations will fail, Dr. Henry Suzzallo, president of the University of Washington, asserted in a brilliant address before the Association of Canadian Clubs here last night.

What is needed in the world to-day, he declared, is a new kind of international organization which will have the solid support of world-wide public opinion, for without this support attempts to guarantee peace will be futile.

Like the parliamentary and other institutions of the Anglo-Saxon race, international institutions must be evolved, based on compromise, Dr. Suzzallo affirmed.

"I appeal for the evolutionary idea," he said. "I warn against sudden revolutionary schemes. You cannot stop wars all at once any more than you can stop crime all at once by an act of the legislature."

In place of the present league, Dr. Suzzallo indicated in a rough way a different kind of international organization which would be based on certain principles which all nations would accept and adhere to. This arrangement might combine the work of diplomacy and of tribunals, he said.

"It is better," he said, "to agree only on things all will stand by rather than on things which will be broken when the crisis comes."

"What we are interested in is the workable thing that will bring progress," he declared. "It may be an exceedingly irregular thing—and this should be agreeable to the Anglo-Saxon mind."

"I don't think that there is any likelihood that say in the next eight years the United States will go into the League of Nations. There are two reasons for this. In the first place, we don't know as a people enough about world matters. We have not a large body of leaders who understand these things. International affairs with us are apt to be settled as domestic issues without the aid of experts on the subject."

"In the second place we are convinced, and I think very wisely convinced, that that which the league tries to do can never be done through the league. We might assume that the league would do say forty per cent. of what it sets out to do. But on account of our psychology, our attitude towards these matters, we are not likely to go into it for that reason. We might go into a new scheme that promises forty per cent. of what the league attempts, provided it was only an association."

"There is great wisdom in not trying to do too much building in one institution," he warned. He feared that the league was trying to do too much overnight. In most cases revolutions were followed by a break, a collapse. This, he feared, might be the result of the league's revolutionary efforts to reform the world too suddenly.

"Even if you have an international army to enforce peace you can't do it unless public opinion is behind it," he asserted.

"To depend upon legislation that has no world opinion behind it is to make idealistic men despair of ever doing anything in the world at all. It is better to strike conservatively low than radically high."

"Every generation has to be educated up to the values which had been reached by the last generation. If the sacrifices of history are to be of avail, we must realize that human institutions are built up on human brick and mortar."

**The British Empire**  
"When I speak to Canadians I realize I am speaking to that unit of the British Empire closest to us and best able to interpret us," Dr. Suzzallo commented.

"The most effective political co-operation the world has devised is the British Empire. Co-operation between the Empire and the United States offers best opportunity in history for the peace of the world," he asserted.

An institution designed to maintain the peace of the world, like any institution, must be built up, it cannot be brought into being overnight, Dr. Suzzallo went on. Building an international institution was like building up a nation, he said. It was an effort to create a stable relationship between men based on certain ideals.

"The problem to begin with is to understand the strength and weakness of the League of Nations."

## CHILDREN CRY FOR "CASTORIA"

**Especially Prepared For Infants and Children of All Ages**

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhoea, allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food, giving natural sleep without opiates.

The genuine bears signature of *Dr. J. C. Fletcher*

could be effective, could live, if it did not have the support of the people. "Law is a democracy where sovereignty rests with the public. It is something that must be preceded by education and common agreement." "You can't just give people laws—they must be evolved just as slowly as criminal law was evolved," he affirmed.

## CANADIAN UNITY IS SUBJECT OF INSPIRING TALKS

**Convention Delegates Discuss Fostering of National Spirit**

**Bishop de Pencier Explains Attitude on Oriental Influx**

Canadian Unity was the subject of several eloquent addresses at yesterday afternoon's session of the Canadian Club Convention, when the speakers set forth ideas under the head of "How best to Promote Canadian Unity."

"All men's ideas, he pointed out, were affected by the conditions of their countries. "The great fallacy that internationalism can be built up by scraping nations into their component parts and then building them again, is a fallacy that must be given up," he asserted.

"The great mistake is the idea that you can build up a great structure without trusses and supports," Communism, Dr. Suzzallo proceeded, had always failed when it had attempted to abolish the individual human family. The family, he asserted, was the place where all the best things in life sprang. The same principle governed nations, he declared. When national life was right, a nation would not want to do harm to other nations, he said. Then it would be able, with other nations, to build up a real, strong international institution.

**Thinking Internationally**  
The root of the difficulty of maintaining international harmony, he declared, lay in the inability of the people of individual nations to think internationally. The same difficulty on a smaller scale was apparent in the nation itself.

Local self-government was the foundation of democracy, he pointed out, but local governments found it impossible to deal with far-off problems that they could not understand. This difficulty affected international affairs, which all nations regarded in the light of their own problems and conditions. Things of great importance to one nation might be of little moment to another.

With all their own internal difficulties, the difficulties of making democracy function, it was strange, said Dr. Suzzallo, that nations believed they could build a great international institution overnight. All men should hold world peace as an ideal, but idealists must face facts, must have legs to walk upon. "The balance of power system may have to be recognized now," he said, "but it is not idealism. It is unworthy of those who have studied history."

**Realistic Idealism**  
"This problem of international relations must be solved by realistic idealism," he asserted. It must be solved by degrees, he emphasized. Some idealists, in attempting to solve the problem, he said, saw all difficulties except the facts of human nature—realities that must be considered.

"You can't go into the Arctic Circle with safety without considering the character of the person with you," he warned. "The only way we can look forward is to look backward."

Democratic nations, Dr. Suzzallo went on, were the greatest experimenters. They never admitted, however, that any plan was an experiment. All plans were panaceas.

**Result of Evolution**  
New thought could start a reform, he said, but a habit of mind was necessary to support it. Ninety per cent. of stability in nations was a matter of habit and tradition—a spontaneous thing. That was why political institutions could not be built overnight. Anglo-Saxon governments, he said, were the most stable in history and they were the result of evolution, of growth and development through centuries.

"I say that although I have not a drop of Anglo-Saxon blood in my veins," he remarked.

"The League of Nations won't work as it stands—it must be changed," he urged. "Prepare to see things evolve. If I were building a League of Nations I would be content to work for one per cent. of what the present league is trying for and be happy if I got two per cent. This would be better than trying for 100 per cent. and get a half."

Dr. Suzzallo emphasized the importance of compromise in human affairs. Compromise, he said, had marked the development of Anglo-Saxon institutions.

"We must not suddenly lose our Anglo-Saxon mind when we get out into international affairs," he urged. "I appeal for the evolutionary idea. I warn against sudden revolutionary schemes. You cannot stop wars all at once any more than you can stop crime all at once by an act of the legislature."

"Constitutions are not written. Even the United States constitution is not written. It is a living thing that changes as life changes. In the generation has it the same degree of life as in another generation. The original constitution of the U. S. lasted as long as the people heard and understood the echoes of the debates of the men who framed it." No law, Dr. Suzzallo declared,

cated, that Canada should develop its own resources, and said that by not doing so she was losing wonderful opportunities.

A strengthening of the central government was essential to Canadian unity, he said. Provincial rates he cited as tending to weaken unity. He hoped the provinces would not attempt to assert their authority too strongly in those businesses which were Dominion wide in character and of importance to the whole of Canada. He entered a plea for sympathy with the French Canadians of Quebec. Anyone who had met them must come away with the feeling that they were essentially Canadian in character, and essentially loyal to the British Empire, and would play an important part in the development of Canada.

**A Wonderful Story**  
Bishop de Pencier concluding the debate approached the subject from the angle of what was essential to preserve Canadian national life. Past traditions and future aspirations should provide that aim. The past of Canada should touch the heart of any lover of history. The inspiring tales of the French settlers and the old Jesuit missionaries had handed down traditions which they would do well not to forget.

He contrasted the disturbed Europe and the Far East, shaken by political intrigues and disturbances, with the conditions prevailing in Canada.

National life was conditioned upon heredity and environment. From French Canada they had a belief in God and domestic purity. Faith in God, Loyalty to the King and Country, resourcefulness and initiative were traits they had inherited in all the years of Canadian citizenship, and which they would do well to preserve.

"Let us think Canada and Canadian ideals, and what we think will come." Good ideals and loyal impulses are the things we should endeavor to have so that those who come will inherit these ideals, which will tend to a united Canada.

**Oriental Influx**  
One danger they faced was an influx of those whose ideals were at variance. They had 16,000 Japanese in the country, all but one thousand of whom were in British Columbia. There were 25,000 Chinese, 17,000 of whom were in the Province of British Columbia. He would not say they should not have them, but he would say they should not have them in such numbers that their own ideals were submerged and swamped by branch factories was rapidly getting inside the Canadian tariff. There were now hundreds of them in the Dominion. This meant a transferring of Canadian resources to the Republic. "Not," said the Bishop, "that we do not love our neighbor in the South, but we love our Canadian more."

The domination of American capital and investment was a menace to Canada which they must watch. They must have faith in Canada and Canada's resources or all they would have left would be a sentiment and a flag.

The husband, who had a great habit of teasing his wife, was out motoring in the country with her, when they met a farmer driving a pair of mules.

Just as they were about to pass the farmer's turn-out, the mules turned their heads toward the motorcar and brayed vociferously. Turning to his wife, the husband remarked, cuttingly, "Relatives of yours, I suppose?" "Yes," said his wife, sweetly, "by marriage."

## WORK FAR FROM EARTH

MR. AND MRS. NICK MAMER

Spokane, Sept. 18.—Speaking of jobs, folks out here are convinced that the Mamer's have about the most thrilling life in the world.

The Mamer's are Mr. and Mrs. Nick Mamer of Spokane, a young couple, recently married. Both are expert aviators, and they employ their time during the day by cruising about up near the clouds, watching for forest fires below.

# Worth While Savings

For Wednesday Morning Shoppers

## At 19c Per Yard

**White Cottons, Flannelettes, Towelings, Prints and Gingham**

**Mill Ends of Snow White Cottons**  
Sturdy Snow White Cotton, in fine, medium and heavy weaves; in lengths of one to ten yards. Values to 40c. Wednesday Morning Special, per yard **19c**

**"THE GREATEST LAD WE'VE EVER HAD."**—Traveling "incognito," under the name of Lord Renfrew, the Prince of Wales has arrived on an unofficial visit to his Alberta ranch. Above, His Royal Highness is shown in a characteristic saluting attitude. At the right is his English-hunting box, Easton Grey House. Below, he is shown shaking hands with a woman patient in the Coventry and Warwick Hospital, England.

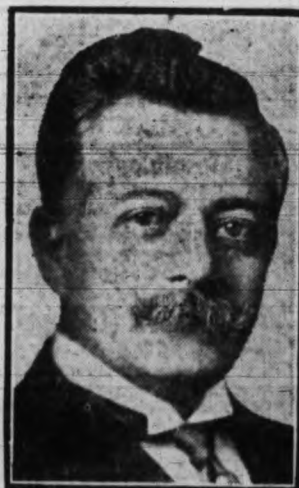

**LEARNING TO BE FARMERS.**—All the old stories about city boys in the country are turning up again at Edslyn Farms, where twenty high school boys are being developed into practical dirt farmers. Their work includes instruction in agriculture under Professor P. B. Post. They receive regular wages for their work, and from Professor Post they get lectures and instruction on livestock, agriculture and farm management.

**ARRIVES.**—Dr. Gustave Stresemann (left) arrives at the Reichstag for the first time as Chancellor of Germany. First photo to reach America since his elevation to that post.

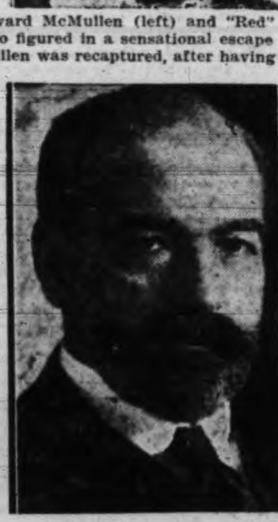

**FAR FROM THE MADDING CROWD.**—Charles G. Steinmetz, wizard of electricity, finds a quiet spot on the Mohawk River near Schenectady, N. Y. There with board stretched across the gunwales of his canoe he works out new problems in volts and watts. Although Steinmetz has spent his summers for twenty-five years at this camp, this is the first picture of him to be taken there.

**DR. EPITACIO PESSOA**, ex-President of Brazil, has been elected to the permanent court of international justice at The Hague.

**MAJOR JAS. I. HARTT**, former Conservative M.P. for East Simcoe, has been appointed overseer of Crown timber agents for Ontario.

**SIR DONALD MANN**, Canadian railway magnate, has returned from a trip to Russia, during which the Soviet government offered to sell him their railways. Sir Donald wasn't having any.

**GOLD.**—Lee Houser (right) dressed up for a picnic after he found a box of gold and currency while working on a mountain road near Tagerstown, Md., to pay his taxes. He doesn't say how much was in the box, but the sum has been estimated at \$100,000. It is thought to have been cached by Grover Cleveland Bergdoll, escaped slacker. Robert E. Lee Waters (left) was digging alongside Houser, but missed the hidden treasure.

**EUROPEAN SPOTLIGHT SWINGS TO GENEVA.**—Four of the chief figures in the Graeco-Italian crisis: Left to right, Benito Mussolini, Italian Premier; A. Salandra, Italian delegate to the League of Nations; N. P. Politis, Greek delegate; Lord Robert Cecil, British representative, and chief exponent of the League's right to deal with the dispute.

**AFTER FIFTEEN YEARS OF FAITHFUL SERVICE.**—These men are not destroying the steel coal cars shown above because of the threatened hard coal strike. It's a regular thing for a railroad to cut up by the latest approved acetylene torch method, hundreds of old car bodies that have outlived their usefulness. The steel bodies are cut into sections and carried away to junk dealers. New bodies are then placed on the trucks. Photo taken in the Bloomington, Ill., railroad yards.

**RECORD.**—Georges Barbot (inset) recently flew 212 kilometers in his motorless glider. That's 132 miles. He did it in six hours and four minutes, over an officially measured circuit at Yauville, France. That's the best record yet for that type of plane.
